## TICK FACTS

**SUPER CREEPY**  
 Ticks are classified as arachnids.

**SUPER STALKERS**  
 Ticks find a vantage point, like tall grass, hold on with the back legs, and stretch out to snag a passerby.

**SUPER VORACIOUS**  
 Ticks can suck 5 to 10 times their bodyweight in blood. Their saliva has anesthetic properties, enabling the tick to go days without detection.

**SUPER INFECTIOUS**  
 Ticks transmit infectious diseases through saliva. They will, if disturbed, regurgitate their stomach contents back into the host's bloodstream.

**SUPER HARD TO KILL**  
 Some ticks can live up to 584 days without food. Even commonly used spot-on pesticides are not 100% effective at killing ticks...not to mention they come with serious pet health risks.

More and more pet owners are turning to natural alternatives, such as garlic, to repel ticks before they bite.

# BEST GARLIC PRICE

There is No Comparison. See the Savings for Yourself!

For protection against biting insects, Springtime's Bug Off Garlic is the top tier choice. With prices starting as low as 5¢ per serving, our products provide an extremely cost-effective option, without compromising on safety and quality.

# BUG OFF GARLIC PRODUCT HIGHLIGHTS

Veterinarians versed in natural alternatives use garlic in their practices around the world. Although well known for its health protective properties, garlic has been used for centuries as an insect repellent. Our air-dried garlic takes that benefit to a new level and is far safer than chemical products. Springtime's Bug Off Garlic can be used with total confidence and has been for over 26 years!

- Convenient, worry-free, 24-hour protection
- A natural shield against fleas, ticks, mosquitoes, flies, & other biting insects
- A safe, effective alternative to chemical products
- Does not wash off
- Supports friendly bacteria in the digestive tract
- Natural source of dietary sulfur, including MSM
- Supports a healthy immune system
