THE SPRINGTIME DIFFERENCE...

Family Owned and Operated

Whether it's customer service, manufacturing, shipping, or the owner himself, we're all located in the building where the magic happens here in Cockeysville, Maryland. When you're talking with us, you're talking to people who love animals and know animals. We're here to listen to your challenges and goals to provide knowledge to help you craft an innovative solution to your need.

Vigorous Testing & Gold Star Standards

We hold ourselves accountable to the strict FDA, NASC, and AAFCO standards to ensure we're formulating the safest, best products possible. Our human grade raw materials are tested for quality, identity, purity, strength, etc according to USP standards. Each raw material must pass every test or we will not use it. Period. We're not in the business of being 'good enough.'

Bundle Deals and Freebies

Investing in your health and your animals' health is serious business. We offer many specials and incentives to help bring down daily costs and extend the supply of supplements to get your monies worth. We have many Buy 2 Get 1 Free Specials, Buy 2 Get 2 Free Specials, and offer free items and free shipping with qualifying orders! We want to do our part to make health and wellness an affordable option.

Same Day Shipping

99% of orders received by 3pm ET are shipped that day. Whether you've waited too long to reorder or are trying something for the first time, know that when your order is placed, we get right to work fulfilling it and sending it on its way. Because who likes to wait around?

60-Day Return Window

We get it. Sometimes things just don't work out as we'd hoped. Rest assured that every purchase you make comes with our word that you're not going to be stuck with it should something not work out. If you're not satisfied with any product, simply return it within 60 days for a refund or credit towards something else. No questions asked. (Open containers subject to a prorated refund). Shipping fees are non-refundable.

Become a Springtime Savvy Shopper!

We've been here long enough to know so many different and unique ways to help you save money on your order! Do you order different Springtime products for yourself, your dog, and your horse? Sometimes all at different times? We have conversations with customers on a daily basis about how to best take advantage of our specials to save on shipping, extend your supplement supply, and reduce your daily cost in the long run. If you need help figuring out the best way to save money on your order, please give us a call. We are here to help you!

Five Simple Ways to Evaluate Dog Health

A few tips to help you identify issues before they become big problems.

1) Weight
Is your pet carrying too much weight? Leaner pets tend to be healthier and have fewer diseases. However, obesity can lead to diseases such as diabetes, arthritis, and heart conditions among others. In addition, that added weight could be aggravating already sore joints and potentially causing further damage. If your dog is too large to weigh at home, most veterinarians will allow clients to come in and check their pet's weight without an appointment or fee.

2) Body Condition
Does your pet have a waist? Most people don't think about it, but your pet should have an hourglass figure. Stand over your dog and look down. If your dog's waist doesn't narrow at least a little bit before the hips, they may be carrying extra pounds. Now we look at the pet from the side: Does their belly start to tuck behind the rib cage? You should be able to feel, but not see, your pet's ribs. If your beloved furry friend is barrel-shaped, then it might be time to reduce your dog's caloric intake. Please remember: You're the one in control of filling the food bowl, and your pet is only in control of emptying it.

3) Ears
As you look into your pet's ears, they should be clean and pale pink (or skin-colored depending on breed and coat color). There should be no brown, black, or waxy build-up. The ears should also be odor-free. Chronic ear goo could be another sign of allergies, and you may want to consider upgrading the diet or adding a supplement containing natural support for a healthy allergic response, such as bee pollen or spirulina (**Longevity, Fresh Factors®**, **Spirulina Chewables**, etc.).

4) Skin Appearance & Itching
Itchy skin can be caused by a variety of factors. The first step is to ensure that your pet does not have fleas. By using a simple flea comb and running it through your dog's fur, you can check for fleas or flea dirt. It's important to get the comb down to the skin as you brush it through, checking for tiny fleas or bits of black flea dirt. If you find either of these, you can use **Diatomaceous Earth** to rid your dog of fleas naturally, as well as any infested areas, such as bedding, couches, carpets, etc. Once the infestation is resolved, you can prevent future flea attacks with daily use of **Bug Off Garlic**.

If you don't find any evidence of fleas, it is possible your pet is suffering from allergies or simply dry skin. When you part your pet's fur and examine the skin underneath, the skin should be relatively pink (or comparable color, depending on coat color) and even-toned without any redness, bumps, flakes, or patches of moisture. You can take a good sniff while you're at the skin level. Does it smell like "dog" or do you smell a yeasty or infection-type smell? These are further signs of allergies, and you might want to evaluate your pet's diet and perhaps consider upgrading to a different food.

A healthy allergic response can be supported by adding either **Fresh Factors** or **Longevity** to your pet's diet. When given daily, the nutrients in these two products nourish healthy skin. For healthy, itch-free skin, consider adding **Omega 3-6-9** or **Skin & Coat Oil** to the diet. Watch as your pet's coat shines with a healthy luster. Let's think of it like this: Someone who eats fast-food hamburgers and fries every day isn't going to have perfect skin and hair, but if they improve their diet, their acne and greasy hair will clear up.

5) Stool Appearance
Stool appearance and consistency are important signs of your pet's overall health. Your pet's stools should be solid and formed but not hard. Coloring will vary depending on what is being fed (if a variety goes in, a variety will come out). You do not want overly soft stools. Also, keep an eye open for parasites. Regular stool sample checks by your veterinarian will ensure your pet remains worm-free.

SPRINGTIME
Fresh Factors®

BUY 2 GET 2 FREE!

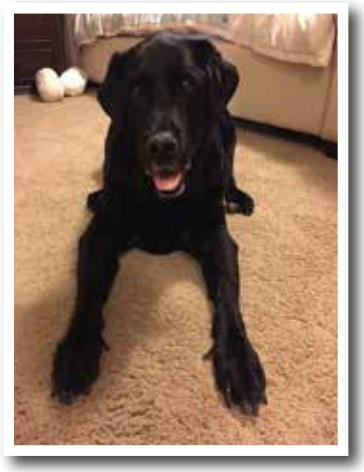
Real letters from real people...



Fresh Factors Helped Duke Beat the Odds!

Dear Springtime,

At 6 months of age, my black Labrador, Duke, was given three years to live. He suffered from severe joint issues. After much success with administering **Fresh Factors** to my mom's Lab & Golden Retriever, I decided to try it out on Duke. We lost my boy last month at age 13. He far exceeded the initial estimate and lived a long, happy, healthy life starting off every day of his life with **Fresh Factors**. My whole family has witnessed the success of this product and swears by it. Thank you for giving me an additional 10 years of happiness with my best friend.

- **Vicki Norman**, California

13½-year-old has "...more energy than a two year old."

Dear Springtime,

Just wanted to tell you how much we LOVE **Fresh Factors**! We started using them several years ago with an older dog that had been retired from competitive events because he was showing his age, and just didn't seem to be feeling up to it. After a couple weeks of **Fresh Factors**, he really perked up and was able to go back to training and competing! It was amazing, the difference it made.

We are currently giving **Fresh Factors** to my 13-year-old Border Collie, Rev, who now has more energy than a two year old. I can definitely tell a difference if he misses getting his **Fresh Factors**.

We recommend them to a lot of our clients as well. The remarkable effect **Fresh Factors** has had on several of our dogs has made me want to try them myself!

- **Lori Herbel**, Oklahoma - XP Ranch

"...still feeling great!"

Dear Springtime,

Ghillie and Nanner wanted to let y'all know they are still feeling great on their **Fresh Factors**. This was on New Year's Day 2019 at Lake 22. Thank you for your products and ethics!

- **Sara Kirkwood**, Washington

Dear Springtime,

Thank you! Our Saluki will be 17 on April 4, 2019. Your **Joint Health Chewables** and **Fresh Factors** have been key to her good health and longevity. Thank you very much.

She is an amazing girl! This picture was taken in July 2018 – at over 16 years old!

- Cynthia, New York

Real letters from real people...

"...lessen the joint problems large dogs can have."

Dear Springtime,

On our most recent visit to our vet, the vet commented on how nice the coat of my eight-year-old Saint Bernard, Tillie, was. She said it is the quality of a much younger dog. Both Tillie and four year old Fiona are therapy dogs, so feeling soft is a plus. I give them **Fresh Factors** and **Joint Health Chewables** because they are BIG dogs and want to prevent and lessen the joint problems large dogs can have. Both are happy and healthy, enjoying life and I feel your products add to that. I often suggest your company to others!

- **Bonnie & Steve Musto**, North Carolina

"THANK YOU for a product that exceeds in every area."

Dear Springtime,

I rescued a dog off the streets in Brownsville, TX last year. He was in horrible shape. Many issues to deal with. For the last few months, he appeared stiff in his hind quarters when he got up from a nap. This increased over a short period of time. X-rays showed no hip issues, so we assumed it was due to a past injury.

My trainer (for behavioral issues) recommended your product, **Joint Health Chewables**. I purchased your product with a great Buy 2 Get 2 Free Special. I tripled dosed him for a week, then went to double dosing for another 2 weeks. The difference is AMAZING. My husband was so impressed, he asked me to order the **Joint Health Capsules for People** to support his knees. I did today! I do not write testimonials about products, because I'm never that impressed. This time I just had to write. THANK YOU for a product that exceeds in every area. AMAZING!!

- **Anne Redding**, Texas

"...remarkable improvement in her mobility!"

Dear Springtime,

I wanted to let you know how pleased I am with the results I am seeing after giving my dog your **Joint Health Chewables**. My 13-year-old Pit Bull was starting to show signs of joint issues. She was having trouble jumping up on the bed, she was hesitant to go up and down the stairs without assistance, and she appeared to be very stiff when she walked or got up from a nap. Before rushing her to the vet for an evaluation, I decided to start her on your **Joint Health Chewables.**

After 7 days of being on your product, I am happy to report seeing a remarkable improvement in her mobility! She's up on the bed again and she's maneuvering up and down the stairs without our help and overall she is much more active. Seeing such a remarkable improvement in her health in such a short period of time by simply giving her 2 tablets a day as recommended really helped put my mind at ease. I am confident her joint health will continue to improve as long as she is on your product so I will be ordering more! Thanks for making a product that works wonders!

- **Lori Schultz**, Texas

BUY 2 GET 2 FREE!

Combo - Fresh Factors® & Joint Health Chewables

Dear Springtime,

I ordered your **Fresh Factors** and **Joint Health Chewables (Combo)** for our 11-year-old greyhound, Bella. Even our regular dog-sitter asked what had changed because she was much more bouncy and energetic.

We recently brought home a second greyhound, Kirby, who came to us with red, scabby patches on his chest and thighs and dry skin. In less than 2 weeks after starting **Fresh Factors**, Kirby's skin is normal and he has stopped scratching. We are hooked!

- **Sara Davis**, Connecticut

80-120 lb	3 of each tablet
120 lb & over	4+ of each tablet

Amount may be doubled or tripled if faster, more dramatic benefits are desired. Larger amounts are recommended for older dogs.

Real letters from real people...

"…he's up running around and playing again!"

Dear Springtime,

I just wanted to say your company is the greatest! I have a golden Lab who is 9 years old. He was starting to develop hip and joint problems and a friend of mine referred me to your company. He was on the **Advanced Hip & Joint Chewables** for less than two weeks and I could tell a huge difference in him! I used to take him for a walk every night but before the **Advanced Hip & Joint Chewables** he really wasn't interested. Now he's up running around and playing again!

> "He was on the Advanced Hip & Joint Chewables for less than two weeks and I could tell a huge difference in him!"

He also developed allergies where he was constantly licking! After reading the side effects of the medication he used before, I didn't want to give it to him again! I chose to use your supplements and he has quit licking his paws! In addition to **Advanced Hip & Joint Chewables**, he is now on **Fresh Factors** and **Longevity**. I would like to say thank you!

- **Dena Conners**, Missouri

"...so much more active..."

Dear Springtime,

My Pug is so much more active after taking **Advanced Hip & Joint Chewables** and **Fresh Factors**. She is doing much better and her condition has not worsened.

My little girl, Moon, and I thank you for your wonderful products for our fine furry friends!

Sincerely,
- **Angeline Marushin**, Nevada

Significant Effect on Discomfort

Dear Springtime,

My neighbor, a well-regarded dog breeder, has been using your products for her dogs for years. I never purchased any for my dog Poppy, until this year when she turned 12 and started to show signs of physical wear. She went from running and playing to just lying on the couch.

I started her on **Fresh Factors** and **Longevity**, but the boswellia in **Advanced Hip & Joint Chewables** seems to have the most significant effect on any problems she has endured because of her aging joints. She is happy and seems to run more easily. She can now jump up and down without the "oof" she was making before she started the **Advanced Hip & Joint Chewables**. She's smiling more, and she's more playful, even playing with the cat while she grins.

I am not a vet. I am not a medical expert. I am not a breeder. But I know this: I love my dog, and now she feels better. My beloved Poppy is happy! Thank you.

- **Patty Kimura**, Massachusetts

SPRINGTIME

Joint Health OA +

BUY 2 GET 1 FREE!

NEW FORMULA

Joint Health OA + is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your dog's joints with complete support to keep them active. **Joint Health OA +** is the powdered version of **Joint Health Chewables**, making it an economical choice.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Helps with mild discomfort associated with aging
- Supports cartilage surface health
- Great for growing or aging dogs

SIZE	½ SCOOPS	$/½ SCOOP	TOTAL
1 lb	505	12¢	$59.50
Buy two 1 lb jars get ONE FREE	1,515	8¢	$119.00

Available as a free bonus. See page 31 for details.

PRODUCT FACTS

Active Ingredients per ½ scoop (900 mg):	
Methylsulfonylmethane (MSM)	225 mg
Glucosamine HCl (shellfish source)	159 mg
Chondroitin sulfate (bovine source)	114 mg
Ascorbic acid (vitamin C)	96 mg
Hesperidin	30 mg
Citrus bioflavonoid complex	24 mg
Hyaluronic acid	5 mg
Manganese	2 mg
Rutin (vitamin P)	1 mg

Inactive ingredients: Carrot powder.

If you are looking for our previous formula with Boswellia, please go to page 14 to read about Advanced Hip & Joint Formula.

Looking for more products with Boswellia? See page 15.

Directions for Use:
Daily Maintenance Dose:
Good: ½ scoop per 20 lb body weight
Better: 1 scoop per 20 lb
Best: 1½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

For the powdered version of this product, check out our **Advanced Hip & Joint Formula** on page 14.

Dear Springtime,

My 10-year-old chocolate Lab, Fisher, has struggled with stiffness and general joint issues in all four legs her entire life. She has always been an active dog with a strong spirit but with four surgically repaired legs we had to manage her regularly with medications and she would have issues for a day or two after hiking or even chasing a ball.

A few years ago, my mom – a former veterinarian – saw an ad for **Springtime Advanced Hip & Joint Chewables** and recommended that we give it a shot. It has changed her life.

At 10 years old she's as active as she was as a puppy. I attribute her continued activity and overall health to **Springtime Supplements**. I would highly recommend **Advanced Hip & Joint Chewables** to anyone with an older dog or a dog with joint issues.

- **Ben Garden**, Virginia

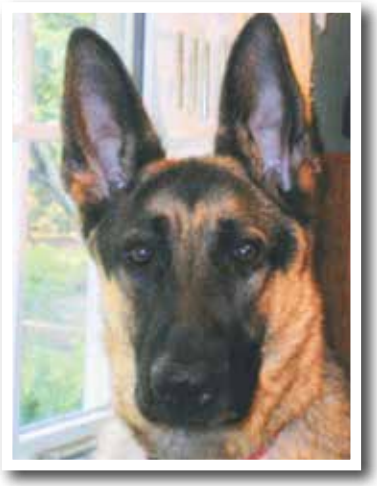
120 lb & over	4+ tablets

Directions for Use: Administer daily. Please introduce gradually (over 5-10 days). Tablets may be broken into pieces for small dogs.

Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity or if faster, more dramatic benefits are desired. Larger amounts are recommended for older dogs.

Real letters from real people...

Kasha Is Like a Puppy Again!



Dear Springtime,

Our 6½-year-old German Shepherd, Kasha, had stiffness in her legs and back. I found your **Advanced Hip & Joint Chewables** and started giving them to her immediately. Within one week, she was acting like the little puppy she was before. She is back to playing ball three times a day. We love that this product is natural and works so well on her. Thank you so much for giving us back our sweet little girl with her energy and spirit.

Sincerely yours,
- **Judith L. Fenicle**, Pennsylvania

"...add both quality and years..."

Dear Springtime,

Thank you for assisting me with our order for our precious son, Charlie. He asked me to let you know how much he likes his **Fresh Factors** and **Advanced Hip & Joint Chewables**. He thanks you from the bottom of his heart! He reports great improvement and increase in his overall energy level and joint comfort. We agree with Charlie's assessment… Energy level is way up, and ability to distance walk without hip discomfort has greatly improved to the point he shows no negative symptoms vs before when his walks had to be reduced by 75% or so. We had the same experience with Charlie's older brother, Moses (RIP 2012). In our experience your products add both quality and years to our precious friends' lives. A home run!! Thanks so much.

– **George Plotner**, Florida

"WHAT A COMPLETE DIFFERENCE YOUR PRODUCT HAS MADE IN HER QUALITY OF LIFE."

Dear Springtime,

My sweet little pug, named "Annie" is like a completely new puppy now, after taking your **Advanced Hip & Joint Chewables** for dogs!! She had problems so bad in one of her rear legs that she could hardly walk on it. Especially after laying down, her leg would get real stiff and she would be hopping around on it. And, we couldn't take her on any 30-minute walks anymore with her brother "Scottie."

It is UNBELIEVABLE how much she has returned to normal function since taking your **Advanced Hip & Joint Chewables.** You have made a believer out of me. WHAT A COMPLETE DIFFERENCE YOUR PRODUCT HAS MADE IN HER QUALITY OF LIFE. Annie is only 5 years old and we sure are glad she is back to normal again, running around the backyard and playing. So, if anybody ever questions the value of your **Advanced Hip & Joint Chewables**, just send them to our house for proof positive that this stuff really works!

Because we were so IMPRESSED with the result of **Advanced Hip & Joint Chewables** for dogs, we decided to try the **Joint Health Capsules** made for people!! Thanks again for your great products!

- **Bob** and **Susan Matthews**, Virginia

SPRINGTIME

Advanced Hip & Joint Formula

BUY 2 GET 1 FREE!

NEW NAME Formerly known as **Joint Health Formula** – made with Boswellia, CS, GL, and MSM. We changed the name to better align with the chewable tablet version, **Advanced Hip & Joint Chewables** (page 12). This powdered version is made with ingredients known to help joints stay lubricated, support the body's normal inflammatory response, and ease discomfort – an excellent option for the aging dog or dog that needs help maintaining comfort and mobility. For comprehensive joint support, not intended to target specific discomfort concerns, please see our new **Joint Health OA +** on page 10.

PRODUCT HIGHLIGHTS

- Promotes comfort & mobility
- Support for discomfort associated with aging
- Great for stiffness after strenuous activity
- Helps maintain joint lubrication
- Helps aging dogs maintain or return to an active lifestyle & the daily activities they love
- Powdered versions give you the best value

BOSWELLIA SERRATA

Treasured since biblical times for its potent health properties.

Boswellia (also known as frankincense) is an herbal supplement with potent health properties made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for its health properties, including support of a healthy inflammatory response.

Studies have shown that boswellic acid supports a normal inflammatory response by blocking the enzyme 5-lipoxygenase which then inhibits the synthesis of leukotrienes. It has also been shown to support healthy cartilage.

Animal Study

In Switzerland in 2004, a veterinary clinical trial was conducted comparing joint health before and after ingestion of extract of boswellia serrata. The extract was given once a day with food at 400mg/10kg of body weight for six weeks. After just two weeks, researchers noted that 71% of the dogs showed improvement. By week six, significant positive changes were shown in mobility and comfort. A few dogs had brief, reversible episodes of loose stools.

"By week six, significant positive changes were shown in mobility and comfort."

(From Dietary support with Boswellia resin in canine inflammatory joint and spinal disease. Reichling J, Schmokel H, Fitzi J, Bucher S, Saller R. Web. 5 December 2010, PMID: 14994484.)

"...now naturally healthy..."

Dear Springtime,

Longevity significantly decreased the shedding on Emma (Corgi x Australian Heeler). Her coat was noticeably coarse before and is now quite soft.

Annabelle (Coonhound) was always itchy and is now much better. Both dogs' skin are now naturally healthy and they no longer want to eat their kibble if the **Longevity** isn't on it.

Thank you **Springtime**, **Chris** and **Will Conyngham**, Pennsylvania

Real letters from real people...

"...moves like a dream..."

Dear Springtime,

This is Zaney who turned 14 the end of March. I am always looking for more holistic ways to give my dogs a better quality of life. Zaney has been taking the **Longevity** for about 2 yrs and I switched from another joint supplement to **Springtime's Advanced Hip & Joint [Chewables]** about 6 months ago. He also gets **Bug Off Garlic** along with my 2 younger Aussies Pony and Breaker. He is an ASCA show champion and in his prime he had flawless movement. I watch him in the yard at this age and he still moves like a dream and I know it is due to these wonderful products. I am so thankful my boy is comfortable and that the supplements supply his needs at this age. Thanks **Springtime** for giving my boy a better quality of life!

Thanks,
- **Maggie Hamelin**, California

"Happy campers!"

Dear Springtime,

Gunner and Sadie love their **Longevity**! They are 10 years young and don't have many complaints. Happy campers!

- **Sheila J. Jackson** – Oregon

Rescue Uses Longevity to Give Pups a Good Start

Dear Springtime,

I am so glad I found **Longevity**! I foster rescue dogs, and they are usually underweight and have weak immune systems. I started using **Longevity** for its nutritional support of the immune system. I add it to a quality food to help give pups a good start. I have seen good results in health and coat.

"I foster rescue dogs, and they are usually underweight and have weak immune systems. I started using **Longevity** for its nutritional support of the immune system."

I believe **Longevity** gives them a better chance of staying healthy and whole. I'm including photos (right) of a female pup, showing before and after three weeks on **Longevity**. This little girl was weak and thin when she came in. But she was strong and healthy when she left to find her adoptive home.

- **Carol Motsinger**, North Carolina

A female puppy enters the rescue underweight...

... and after 3 weeks on Longevity, she is strong and healthy for her adoptive parents.

J-Flex Concentrate for Dogs & Cats

J-Flex Concentrate was **Springtime's** first joint health product, and today it's still the most cost-effective joint health product on the market. **J-Flex** is pure, high-grade chondroitin sulfate – a natural ingredient for healthy joint lubrication and helps provide support for a normal inflammatory response after workouts. **J-Flex** supports mobility and comfort, especially for aging animals. A tasteless and odorless powder, **J-Flex** is easy to give to even the pickiest dogs and cats.

PRODUCT HIGHLIGHTS

- Helps support healthy cartilage & joint tissue
- Cost-effective, single-ingredient supplement
- Supports joint lubrication for healthy mobility and flexibility
- Supports a normal inflammatory response for comfort issues
- Easy-to-administer powder (virtually tasteless & odorless)

CHONDROITIN SULFATE

The body naturally produces a molecule called chondroitin for the formation and maintenance of joints. The good news is that it can be supplemented to support joint health and comfort.

Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and it is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement to maintain healthy cartilage, joint lubrication, and healthy skin, nails, and hair.

Not All Chondroitin Is Created Equal

The chondroitin used in dietary supplements is extracted from the cartilage and connective tissues of animals. The most common animal sources are cow, pig, chicken, and shark. Chondroitin varies depending on the source, and scientists have separated it into three distinct classes: A, B, and C. This is important because chondroitin A has greater health benefits than B or C, and some animal sources have more chondroitin A than others. For instance, chondroitin sulfate sourced from beef trachea cartilage (used by **Springtime**) has among the highest concentrations of chondroitin A. Conversely, some products on the market are labeled as 100% chondroitin but contain little to no chondroitin A, rendering them woefully ineffective.

Chondroitin sulfate is one of six related substances called glycosaminoglycans (GAGs), which are also referred to as mucopolysaccharides. Adequate amounts of chondroitin are vital for normal joint function and maintenance, as well as many other self-healing mechanisms.

SPIRULINA

This global super-algae supports a healthy immune system for a variety of benefits.

Spirulina is a microscopic blue-green vegetable algae that is considered to be one of the most nutrient-dense ingredients available. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, iron, chlorophyll, GLA, and essential amino acids, as well as other trace minerals and nutrients.

Spirulina has emerged as an especially potent and healthy ingredient for humans and animals alike. For centuries, many cultures have used Spirulina as a significant food source and an essential nutrient for health and vitality.

Safe and non-toxic, this natural algae supports the endocrine and immune systems. Spirulina is perhaps best known for its ability to help support a normal allergy response. High in antioxidants, spirulina is thought to help protect the body from free radicals that are found in the environment. Spirulina has also been shown to help promote gastrointestinal health.

The B vitamins in spirulina support the nervous system. In addition, spirulina supports the detoxifying role of the kidneys and liver.

Springtime uses only the highest-grade spirulina, chosen for purity and freshness. Modern culture systems are strictly controlled, assuring 100% purity of the strain for a safe and reliable supply. And, as with all **Springtime** products, we choose to manufacture to USP standards, which include testing for heavy metals, pesticides and contaminants.

"I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too!"

Dear Springtime,

Just wanted to let you know that my dogs are receiving an unexpected benefit from eating the **Spirulina Chewables.** In a recent annual check up, the vet remarked how clean the teeth of my 9-year-old Springer-Lab mix were for his age. I started thinking, and all I could figure was that it must be from chewing the **Spirulina Chewables**!

I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too! Now I give them to my 3-year-old Corgi/Beagle mix, Jenny, too!

Thanks, Springtime.
- **Kathi Fuller**, Illinois

BEE POLLEN

SUPPORTS ENERGY, DIGESTION, IMMUNE HEALTH, AND MORE.

Bees produce more than honey! They collect granules of flower pollen as a food source for the adult bees in the hive. Bees would not have their famous reputation for staying busy without flower pollen. Bee-collected pollen is densely nutritious, and it has been treasured for its health properties for thousands of years for both people and animals. The benefits of bee pollen include:

- It helps support healthy muscle condition, essential for strength & endurance
- Live enzymes support healthy digestion
- It supports a healthy immune system
- Contains antioxidants, vitamins, and minerals

The key benefit of bee pollen is that it is loaded with antioxidants, vitamins, minerals, protein, and live enzymes. Because of its dense nutrition bee pollen uses include supporting energy needs, muscle strength, healthy digestion, and immune support. Bee pollen is taken as a supplement in its naturally occurring granule form, ground into a fine powder, or as part of an ingested supplement, such as a pill or chewable tablet.

Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body. Enzymes are perhaps the most important of the health-giving plant factors. They are completely destroyed by high temperatures (130 degrees) – cooking! Enzymes are the essential triggers for the metabolic machinery of every living thing, from daffodil to buffalo. The enzymes in raw foods are necessary because they help support the body's own enzyme systems. Enzymes are the life principle of every living cell.

Bee Pollen for Seasonal Support

Bee pollen supports the immune system. When the immune system is functioning properly, it is less likely to overreact to non-threatening stimuli, like seasonal allergens, with annoying sneezing, coughing, and itching. Typically it is not necessary to consume local bee pollen to achieve the health benefits. This is a common misconception. The immune system benefits of bee pollen operate with a biological mechanism in which the origin of the bee pollen makes no difference whatsoever.

Important: Store away from heat. If stored at room temperature, best used within six months after opening. (For longer storage, please refrigerate.) Close tightly after using.

"Four years of suffering GONE!"

Dear Springtime,

This is our big boy, Max. He's five. Since he was a year old he has suffered terribly from allergies. We tried everything we could think of – anything to save him from pure misery, but nothing was working. So one day, after searching for natural answers, I found **Springtime**. I can't tell you enough how wonderful this has been for Max's life. Four years of suffering GONE!

I Googled and found that **Bee Pollen** helps manage allergies. His fur is coming back full and thick, and his joy level is off the charts. Can you imagine how we feel? THANK YOU!

- **Debbie King**, Oklahoma

"I am astonished."

Dear Springtime,

Months back my Corgis, Callie and Cooper, needed digestion support. We had struggled for months and had done lab testing, food changes and so on with very little difference. Then finally, we tried **C-Complex**, and within a few days, I saw normal stools! Wow!

Later, we stopped the **C-Complex**, and all other supplements for a while…. However, both Callie and Cooper had injured themselves while playing, and were pretty uncomfortable. I decided to start sprinkling **C-Complex** on their food one Saturday morning, and did it again that night. We got up on Sunday morning to both Callie and Cooper running through the house! Both were totally putting their weight on all four legs! I am astonished.

I am sharing with my fellow Corgi owners. Thank you!

- Lori Haskett, Illinois

Real letters from real people...

"Thank you, thank you, thank you!"

Dear Springtime,

I just can not thank you enough for your **Longevity**. My dear Marley had this issue for years, after he would eat or drink he would burp and spit up. It was getting worse with more and more substance coming up. I tried everything over-the-counter and prescription, but nothing worked. I spent so much money and time cleaning up. Then I tried your **Longevity**! I purchased one container first because Marley is a very discriminatory eater. I thought he will not like it. He does not like it, HE LOVES IT!! He has stopped spitting up, his itching has stopped due to a yeast condition on his skin, and it is easier for him to get up! These are the things I have witnessed. I am sure **Longevity** is doing a lot more internally and helping him feel better. Thank you, thank you, thank you!

- **Jude Makowski**, Arizona

"...Spirulina Chewables are a treat..."

Dear Springtime,

I have been ordering from **Springtime** for years now and have also taken every opportunity to tell others about your company and great supplements! I recently realized I have never told YOU how pleased I have always been with the products.

I have a small Rescue/Rehab for a variety of animals and many have been the recipients of your formulas. I currently have 17 dogs and one of my favorite additions to their diet is the **Longevity**. I raise all my giant breed pups (Wolfhounds and Danes) on this, as optimal nutrition is extra important for the fast growing guys. Nearly all my critters, dogs and otherwise, think the **Spirulina Chewables** are a treat, and really, anything I have ever ordered is top quality and well accepted by all.

I have most recently plugged **Springtime** on one of my forums and I know you have received numerous orders! I have attached a few pics of a couple of my **"Springtime"** guys also. I operate on a shoestring budget, but their supps are a priority whenever I can spare the cost. Thanks for being a company I can count on and recommend with pride!

- **Janice Wolf,** Arkansas, **Rocky Ridge Refuge**

"The quality...is impressive and they REALLY work!"

Dear Springtime,

This is Ozzie. She is my youngest Labrador Retriever. As a breeder of Labradors, I rely on several of **Springtime's** fine products. I take a holistic approach to raising my Labs and keep things as natural as possible, so **Bug Off Garlic** is a must in their diet. I do not use topical chemicals or oral medications to repel ticks and fleas and **Bug Off Garlic** keeps my 'pack' free of internal parasites. I keep **Bee Pollen**, **Omega 3-6-9**, and **Skin & Coat Oil** on hand at all times. The quality of **Springtime** products is impressive and they REALLY work!

I had a phone call just last week from someone that was on the **Springtime** website, noticed a picture of my husband and me with our Labradors, and wanted to know if the 'testimony' was really real. I get several calls a year from people that see my dogs on the website. They call to ask about the quality and effectiveness of **Springtime** products and I am always happy to sing the praises of **Springtime** and their fabulous products.

Sincerely,
- **Sandy Stokes**, West Virginia - **Red Barn Ranch and Labradors, LLC. - Breeding & Training**

"She doesn't itch anymore. Even the groomer...asked me what I did!"

Dear Springtime,

I have used your products for many, many years and recommend them to people often, especially clients at the Vet's office I work at part-time.

I rescued an English bulldog, Moosa, from our local shelter. She was taken from a drug raid. Her skin was horrible & both of her hips are out of the sockets. I put her on your **Advanced Hip & Joint Formula** (originally Joint Health Formula) as all of my dogs are on, and put her on your **Skin & Coat Oil**. After about a month, her skin looked beautiful, smooth and shiny, and it no longer smelled. She doesn't itch anymore. Even the groomer, where I take her for a bath once a month, asked me what I did!

I just wanted to thank you again for your products. They are amazing.

- **Vicky Hoffman**, Pennsylvania

Omega 3-6-9

Springtime Omega 3-6-9 softgels are a reliable source of omega fatty acids. Because omega-rich oils tend to oxidize (turn rancid) quickly, we really like the softgel protection from oxygen. If you cut an **Omega 3-6-9** softgel open and sniff, it will always have a nice, fresh aroma.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Provides complete full-spectrum omega 3, 6, and 9
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc. – absolutely clean and safe
- Supports healthy hip and joint mobility
- For a vegan alternative in a convenient, shelf-stable bottle, check out **Skin & Coat Oil**

SIZE	$/SOFTGEL	TOTAL
200	23¢	$45.00
600 (3 x 200)	20¢	$117.50

PRODUCT FACTS

Active Ingredients per softgel (1.275 g):	
Omega-3 fatty acids (Distilled wild fish oil, flaxseed oil) Providing 180 mg alpha linolenic acid (ALA), 115 mg eicosapentaenoic acid (EPA), and 80 mg docosahexaenoic acid (DHA)	375 mg
Omega-6 fatty acids (Borage seed oil, flaxseed oil) Providing 164 mg of linoleic acid (LA) and 72 mg of gamma linolenic acid (GLA)	236 mg
Omega-9 fatty acids (Borage seed oil, flaxseed oil) Providing 136 mg oleic acid (OA)	136 mg
Vitamin E (as mixed tocopherols)	10 IU

Inactive ingredients: Gelatin, glycerin, and purified water.

Directions for Use: Administer daily.

WEIGHT	AMOUNT
Under 20 lb	1 softgel every other day
20-40 lb	1 softgel
40-80 lb	2 softgels
80-120 lb	3 softgels
120 lb & over	4+ softgels

Amount may be doubled or tripled if faster, more dramatic benefits are desired. Larger amounts are recommended for older dogs.

"...within a few weeks, his hair grew back."

Dear Springtime,

My dog, Huckleberry, lost a patch of hair above his tail. When I saw your catalog and got **Omega 3-6-9**, it has been a huge support. I started Huckleberry out on double dose and within a few weeks, his hair grew back. We get compliments about how shiny he is.

- **Patches Brown**, Ohio

SPRINGTIME

Stress Free Calmplex®

BUY 2 GET 2 FREE!

There is a big difference between high-energy exuberance and stressed-out nervousness. **Stress Free Calmplex** helps the body's natural processes for managing physical and mental stressors. Works best when given daily, but can be double-dosed to target events.

PRODUCT HIGHLIGHTS

- Helps manage separation discomfort
- Helps support focus and concentration
- Excellent for showing and performing
- Supports ability to deal with stress - does not sedate
- Helps dogs manage troublesome events (vet visits, trips, boarding, etc.)

Freckles Is No Longer a Handful!

Dear Springtime,

Our dog, Elmo Freckles, a black Lab/Great Dane mix, is 28 months old and has been quite a handful for a 91 year old woman to take care of. That is, until I found your product **Stress Free Calmplex**. Freckles also takes **Bug Off Garlic Chewables** for the flies we have here, and **Fresh Factors** to maintain his allergies.

Freckles likes to sit on the scooter and watch the kids go to school.

Thanks, **Springtime**, for your wonderful products.

- **Roberta Jablonski**, Nevada

Real letters from real people...

New Hope for Rescue Dog!

Dear Springtime,

I have never bought a product based on testimonials, nor have I ever sent a testimonial, but I did both with **Stress Free Calmplex.** I got your catalog and read letters from dog owners who have used it. I had already put my abused rescue dog, Jadis, up for rehoming because we could not get past her anxiety to train her.

We had been held hostage to her unsafe and unpleasant behaviors for two years. We had tried anti-depression medication to no avail. I decided to give one last try so I ordered the **Stress Free Calmplex**. Within a couple of days, she was a different dog. People came to the house and asked what happened to her. She is now able to focus and attend, and we are finally working on some really problematic behaviors that we had given up hope on.

Looking at her, I can only imagine that she must feel relieved to not be living with the level of fear and anxiety that she had before. I don't know what is in it, but, man, is it ever working. I am sending in another order. We have told everyone we know about the product. Thank you!

- **Debra Bercuvitz**, Massachusetts

Amber, the foster dog helper!

Dear Springtime,

My name is Amber, and I'm writing to let you know how much my mom loves your products. She also loves me so much that I receive **Stress Free Calmplex** tablets daily to help reduce my stress. You see my story is a special one...

I have a job each day to help foster dogs that are rescued to become friendly with other dogs and relax so they can be adopted into a new "forever home" by special families. This is a tough job for a dog like me, I can become very attached to these fosters and want them to stay at my house forever. When the fosters were adopted and left our home I became very stressed. Although my mom tells me we need to keep our home and hearts open for other rat terriers in need, this was a hard time for me. I share my mom with these foster dogs and my mom shares my **Stress Free Calmplex** with the fosters who may need them. Some foster dogs need extra help to settle in and these treats work great for them too! She even recommends your products to the new adoptive families.

Sincerely,
- **Amber, Four Paws Amber's Legacy**, Pennsylvania

SPRINGTIME

Astaxanthin

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color.

Intense physical activity causes fatigue and soreness in dogs due to the creation and release of free radicals into their muscle tissue. **Astaxanthin** visibly improves your dog's performance, both physically and internally, by increasing immune markers as well as decreasing DNA damage and C-reactive protein levels, while also reducing the risk of clogged arteries and providing other cardiovascular benefits.

Astaxanthin has become a supplement of choice in the grueling world of sled dog racing – imagine what it can do for your dog!

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength
- Supports healthy cardiovascular function for working, sport, and active dogs
- Supports the body in recovery from exercise
- Supports and protects healthy gums
- Supports skin health during UV and sun exposure

SIZE	$/SOFTGEL	TOTAL
100	37¢	$36.75
Buy 2 jars of 100 get ONE FREE	25¢	$73.50

Available as a free bonus. See page 31 for details.

PRODUCT FACTS

Active Ingredients per softgel (735 mg):

Natural astaxanthin (*Haematococcus pluvialis* microalgae)	4 mg

Inactive ingredients: D-alpha-Tocopherol, gelatin, glycerin, high oleic safflower oil (non-GMO), medium chain triglycerides, and water.

Directions for Use: Administer one to three softgels daily.

Diatomaceous Earth

BUY 2 GET 1 FREE!

If your dog has fleas, or is exposed to fleas, **Springtime Diatomaceous Earth (DE)** is a tactical solution to rid your pet and home of an active infestation of these pests.

PRODUCT HIGHLIGHTS

- Microscopically sharp edges of the diatoms pierce the flea's protective coating, so they dehydrate and die
- Works great on bedding, furniture, and carpet
- Chemical and poison free
- Easy to use – sprinkle directly onto pet and/or to exposed living spaces (e.g., carpet, bedding, etc.)
- Great in conjunction with **Springtime Bug Off Garlic** for ongoing year-round support

SIZE	$/oz	TOTAL
1 lb	$1.09	$17.50
Buy two 1 lb jars get ONE FREE	73¢	$35.00

Available as a free bonus. See page 31 for details.

PRODUCT FACTS

Ingredients: Diatomaceous earth.

THE ULTIMATE ONE-TWO PUNCH FOR COMBATING FLEAS:

1. Eradicate existing fleas by rubbing your dog's coat and living spaces with a generous amount of **Diatomaceous Earth** (avoid nose & eyes).
2. Prevent future flea infestations with **Diatomaceous Earth** and **Bug Off Garlic** (see pages 34-35).

Directions for Use:
Sprinkle directly on your dog's coat, taking care to avoid the eyes and nose. Using your hands, work into the fur and onto the skin underneath, focusing on areas where fleas may try to hide. It is okay to leave **Diatomaceous Earth (DE)** on your dog for up to 48 hours before bathing. If used on carpet, bedding, or furniture, **DE** can be vacuumed up after 48 hours, taking care to avoid dust.

SPRINGTIME

Bug Off Garlic Chewables

BUY 2 GET 2 FREE!

Garlic is nature's insect repellent. Although best known for its health protective properties, it has been used for centuries as an instect repellent. **Bug Off Garlic** is a convenient, natural, and safe way to protect your dog from fleas, ticks, and other biting insects. Best of all, it does not have the dangerous and painful effects common to spot-on chemical products for flea and tick control.

See Product Highlights on Page 35

Available as a free bonus. See page 31 for details.

Directions for Use:

Initial Dose: Introduce gradually over the first few days by using a fraction of your Daily Maintenance Dose. Do not be discouraged if your dog does not take to the change immediately. Once your Daily Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Daily Maintenance Dose: One tablet per 20 lb body weight. (Amount may be doubled or tripled, as needed.)

WEIGHT	AMOUNT
Under 20 lb	¼-1 tablet
20 to 40 lb	1-2 tablets
40 to 80 lb	2-4 tablets
80 to 120 lb	4-6 tablets
120+ lb	6+ tablets

Recommended: Tablets may be broken into pieces. Use year-round.

Double or triple doses are recommended for areas of high infestation as is increasing the amount in the spring and fall when insects tend to surge.

Variances on color and aroma from batch to batch are normal.

PRODUCT FACTS

Active Ingredients per tablet (2.35 g):

Garlic (*Allium sativum*)	1,000 mg
Active dry yeast	350 mg

Inactive ingredients: Desiccated beef liver, dextrose, microcrystalline cellulose, and stearic acid.

REAL BEEF LIVER

Springtime uses beef liver in generous quantities to make our dog products easy to give. The beef liver is from hormone-free cattle raised in pristine wild areas of Argentina. The beef liver is also loaded with essential vitamins and minerals dogs need.

SPRINGTIME

Bug Off Garlic Granules

BUY 2 GET 1 FREE!

Garlic (*Allium sativum*)	3,000 mg

Inactive ingredients: None.

Directions for Use:

Initial Dose: Introduce gradually over the first few days by using a fraction of your Daily Maintenance Dose. Do not be discouraged if your dog does not take to the change immediately. Once your Daily Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Daily Maintenance Dose:

Good: One scoop per 60 lb body weight

Better: Two scoops per 60 lb

Best: Three scoops per 60 lb

Recommended: Use year-round.

Double or triple doses are recommended for areas of high infestation as is increasing the dosage in the spring and fall when insects tend to surge.

Variances in color and aroma from batch to batch are normal.

Real letters from real people...

"...I can now run, play Frisbee, and enjoy life."

Dear Springtime,

I am Jozi Von Schreknhaus from Pennsylvania. I got a broken front leg when I was a very young puppy. Thanks to **Joint Health Chewables** and **Fresh Factors**, I can now run, play Frisbee, and enjoy life.

I am also flea and tick free thanks to **Bug Off Garlic Chewables**. I take my supplements daily without a problem. I am a long coat West German Shepherd, so happy and beautiful thanks to **Springtime**.

Thank You,

- **Mandi Capone**, Pennsylvania

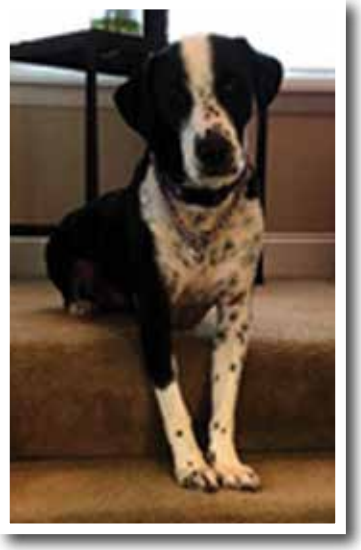
"…flea and tick free…"

Dear Springtime,

I just wanted to drop you a note thanking you again for providing superb natural products that help keep my beloved Wally healthy. When I went on the website today to order more **Bug Off Garlic Chewables**, I was shocked to see my testimonial of Wally at the top of the page!

Wally still gets his **Bug Off Garlic Chewables** as well as **Fresh Factors**, **Joint Health Chewables**, and **Skin & Coat Oil**. This combination of natural supplements keeps him flea and tick free, enhances his physical health, maintains seasonal allergies, and supports the softest & shiniest coat. We both THANK YOU again for selling such excellent and safe to use products!

- **Jessie & "Wally" Green**, Maine



"All clear" - No bugs for Kona!

Dear Springtime,

I just went to a new holistic vet and got the "all clear" for Kona. No bugs. However, the vet recommended a flea and tick prevention treatment anyway. I reminded them that I use **Bug Off Garlic Chewables** and asked, "Did you find any fleas or ticks on her?" They said no. So I asked, "The heartworm test was negative, right?" And they said yes. "Well, ok then!"

Bugs, including mosquitoes, stay away from both my dogs, Kona and Callie. And, we go to the local park regularly! I'm overly careful with my girls as I've rescued one in the past who came to me with heartworm and suffered greatly from the kill treatment into her spine. Great company and products!

- **Kathleen Barry**, North Carolina

COMMON QUESTIONS ABOUT GARLIC

SPRINGTIME ANSWERS SOME OF THE MOST COMMONLY ASKED QUESTIONS ABOUT GARLIC.

What kind of bugs are repelled by garlic?

Ticks | Fleas | Flies | Gnats | Mosquitoes | Giardia

How garlic works as a bug repellent:

"It would seem that the powerful compounds such as allicin which garlic releases are inimical to mosquitoes. They have therefore evolved to avoid garlic. Another possibility is that the strong smell of garlic overwhelms the mosquito's sense of smell and prevents them from finding the prey. Whatever the mechanism, garlic's ability to repel a variety of pests has been proven scientifically." (Mendham, Trevor. "A Natural Mosquito Repellent: Garlic for Mosquito Control." Garlic Central. 2003-2005.)

Garlic safety:

Springtime has sold literally tons of garlic a year for over 20 years, and in that time, we have talked to plenty of customers concerning garlic's efficacy, health benefits, and safety for both dogs and horses. There is a lot of misunderstanding about garlic, and most of the confusion stems from a single study in Japan where four dogs were force-fed extremely large amounts of raw garlic. Garlic preparations vary in chemistry, and the air-dried garlic we use contains very little of the oxidative component that may cause problems if used in excess, so it is gentle and absolutely safe for everyday, year-round use. We feel you may give our garlic with complete confidence.

Garlic for pregnant, nursing, and newborn animals:

Many of garlic's nutritional and protective properties are passed on from the mother to the baby during gestation. The customers who have had the best experiences with nursing animals and garlic have introduced it very slowly, taking at least 10 days to ensure acceptance. Foals or puppies can be given garlic as soon as they are weaned. Many breeders report great results.

Increasing garlic with the change of seasons:

Customers report best results when they give Bug Off Garlic year-round, and double or triple the dosage in the spring and the fall. Most people are aware that spring can be very buggy, but it's less well known that fall is a concern, too. Insects like ticks surge in the fall, desperately looking for a last blood meal to survive the winter. We recommend giving Bug Off Garlic daily, year-round, because it can be challenging to re-introduce Bug Off Garlic after a hiatus, particularly with picky animals.

Garlic for animals other than dogs and horses:

Our customers have used garlic successfully on miniature horses, donkeys, goats, sheep, rabbits, alpacas, llamas, deer, and cats as well as many other farm animals. You can calculate the correct dose by body weight according to the dog recommendations for smaller animals or the horse recommendations for the larger animals.

Garlic as a dewormer or heartworm preventative:

Although Bug Off Garlic is helpful in reducing both internal and external parasites, you may wish to consult your practitioner for these issues. For a list of holistic veterinarians in your area, you can visit the American Holistic Veterinary Medical Association online (http://www.ahvma.org/).

Garlic for picky or finicky animals:

For dogs and horses, starting off slowly is key. Introduce gradually over the first few days by using a fraction of the Daily Maintenance Dose. Do not be discouraged if your dog or horse does not take to the change immediately. Once the Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Garlic granules with dry food:

Customers who give grain, pellets, or kibble have developed various strategies to prevent garlic granules from falling to the bottom of the bucket or bowl. For horses, customers have often reported using a spray bottle filled with water, lightly spritzing before sprinkling the garlic on with great success. For dogs, mixing the granules with a little bit of a favorite canned goods, plain yogurt, liverwurst, or peanut butter, often helps.

INGREDIENT GLOSSARY

A selection of some of the time-tested ingredients used in Springtime Supplements.

ASCORBIC ACID (VITAMIN C)
The "master vitamin" supports a healthy immune system, a normal inflammatory response, and tissue, tendon, and ligament health. Vitamin C is also an antioxidant that plays one of the most important roles in the body. It is needed to maintain the health of skin, cartilage, teeth, bone, and blood vessels. Plus, it is used to protect the body's cells from damage.

ASTAXANTHIN
A reddish pigment that belongs to a group called carotenoids. Found naturally in certain algae, it is what gives shrimp, salmon, and other seafood their pink/red color. Astaxanthin is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

BEEF LIVER
A rich source of B vitamins, iron and trace minerals which naturally support the body's quest for health and energy.

BEE POLLEN
The male germ cell of plants, the most nutritious part. Contains powerful whole-food antioxidants, vitamins, minerals and hormones potentiated by massive amounts of live enzyme activity. Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body.

BIOTIN
Biotin is a B vitamin that plays a key role in the production of skin, nails, and hair. The B complex vitamins, like biotin, help the body convert carbohydrates, fats, and protein into energy. Biotin is used by the body to maintain the health of skin, the digestive tract, and the nervous system.

BOSWELLIA
Boswellia (also known as frankincense) is made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for comfort support by helping the body maintain a healthy inflammatory response.

CHONDROITIN SULFATE
Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement for maintaining healthy cartilage, joint lubrication, skin/coat, and for a normal inflammatory response.

CITRUS BIOFLAVONOID COMPLEX
A biologically active antioxidant that helps optimize vitamin C absorption and utilization. Also known to support a healthy inflammatory response and cellular membrane health.

GARLIC (AIR-DRIED GRANULES)
Nutrient-rich and aromatic, air-dried granules are most well known as a non-toxic bug repellent, a natural detoxicant, and as a dietary sulfur. Garlic is nature's insect repellent. It is a powerful and safe way to protect your horse or dog from fleas, ticks, and other biting insects. Best of all, garlic doesn't have the dangerous and painful effects common to sprays and spot-on chemicals for flea and tick control.

SPRINGTIME
P.O. BOX 1227
COCKEYSVILLE, MD 21030

GLUCOSAMINE
Glucosamine is an amino sugar produced by the body for use in tendons, ligaments, cartilage, and in the fluid around the body's joints. Glucosamine supplements help support joint health in people, dogs, and horses by giving the body the additional glucosamine it requires to maintain healthy joint tissue and fluid.

HYALURONIC ACID
Hyaluronic acid is a naturally occurring gel-like substance belonging to the group of glycosaminoglycans (GAGs). It is present in different places in the body, but mostly in the connective tissue space and synovial fluid. Since the purpose of joint fluid is to lubricate, HA helps promote this function. Additionally, HA helps with the shock-absorbing capacity of the joint and distribution of the mechanical forces impacting the joints.

KELP
Kelp is a leafy form of brown-algae seaweed that absorbs a vast variety of nutrients and minerals present in the water around it. Kelp is a commonly eaten food in many places, especially in Japan where it has been used as a food and for health benefits for thousands of years. Kelp has gained popularity in recent decades as a supplement, because it is rich in vitamins (A, B1, B2, C, D and E) as well as minerals (zinc, iodine, magnesium, iron, potassium, copper and calcium). In addition to its nutritional value, kelp is known to support healthy skin/coat and for maintaining healthy weight and blood pressure.

MANGANESE
Manganese is a trace mineral that is essential for the formation of healthy cartilage and bone. It plays a vital role in metabolizing fats and carbohydrates, as well as synthesizing chondroitin sulfate. Manganese is part of the antioxidant enzyme superoxide dismutase (SOD), which helps protect against free radicals.

MSM
Methylsulfonylmethane is a naturally occurring sulfur compound found in plants, animals, and humans. MSM is approximately one-third sulfur and delivers an absorbable form of sulfur that the body needs for the production of cartilage. MSM is believed to support a normal inflammatory response and is widely used as a supplement for joint health.

OMEGA/ESSENTIAL OILS
Some of the systems these nutrients help support are the nervous, immune, and cardiovascular systems. Omegas also help the body maintain healthy skin and joints.

PANAX GINSENG
Ginseng (panax ginseng) is a member of the ivy family that is renowned for the health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, "panax" is Greek for "all healing."

SPIRULINA
Spirulina is a microscopic blue-green vegetable algae that supports healthy endocrine, nervous, and immune systems. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, GLA, and essential amino acids. Spirulina has emerged as an especially healthy whole food for humans and animals alike.

YEAST – (ACTIVE LIVE YEAST)
Active Live Yeast culture (*saccharomyces cerevisiae*) is a complete protein and super-supplement containing 18 amino acids, B complex vitamins, dietary fiber, as well as many other nutritional components and minerals. It contains additional functional and beneficial components such as beta-1, 3 glucan, trehalose, mannan and glutathione. Studies have shown that these components have potential health benefits, such as supporting healthy immune responses and cholesterol.

Bon A-Pet-Treat!

Made in the USA

SPRINGTIME TREATS

Real meat treats that dogs love. Nothing more, nothing less.

The typical supermarket dog treat is a processed, molded, dyed concoction of mystery ingredients. Our loyal companions deserve better and that's why we created a line of **Springtime Treats**.

Your dogs will love these delicious, all-natural treats, with the flavors and chew to satisfy their primal cravings. And you'll love giving your dogs a natural treat that is made in the USA with high quality ingredients, like duck and beef – and NEVER any fillers, preservatives, or dyes.

Real letters from real people...

"My dogs love the **Beef Liver & Coconut Cookies**, and I feel good about giving them…"

- **Martha McCormick**, South Carolina
  Asgaard Kennel Bernese Mountain Dogs

"They are seriously obsessed ... hands-down their favorite treat!"

Two pictures of my dogs enjoying your **Duck Feet**. They are seriously obsessed with them and are hands-down their favorite treat! I even believe my Westie's teeth look a bit whiter after enjoying one every other day for a few weeks now. And Desi gets squinty eyed, she's so excited when she gets one! THANK YOU!!

– **Lauren**, Ohio

SPRINGTIME

Beef Trachea

Dogs LOVE to chew! Why not use a healthy chew that keeps their teeth and gums clean and is a natural source of chondroitin sulfate and glucosamine? Our oven-dried **Beef Trachea** is delicious and chewy enough to keep dogs happily occupied for a while.

PRODUCT HIGHLIGHTS

- Oven-dried for best flavor
- Minimal odor
- Supports healthy teeth & gums
- Supports joints & connective tissues
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

SIZE (QUANTITY)	$/EACH	TOTAL

"Especially tasty in the snow!"

I love the **Beef Trachea** treats from **Springtime!** Especially tasty in the snow! Woof!

- **Creede (and Creede's mom Sue Armijo)**, Colorado

Ingredients: Beef trachea.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Bully Sticks

Springtime Bully Sticks are made from 100% U.S. beef with no added dyes, chemicals, or preservatives. Chewing is a natural behavior in dogs, but we would prefer they chew on safe, healthy treats rather than less than desirable substitutes like our new leather shoes or the dining room table legs. **Springtime's** line of long-lasting, natural **Bully Sticks** encourages healthy chewing habits, while keeping dogs happy and occupied (making dog owners happy as well!). And **Springtime Bully Sticks** work great as a dental treat, keeping gums and teeth healthy without additives or sugary carbohydrates.

Sourced and made in the USA, our **Bully Sticks** are a safe alternative to chemically laden, potentially dangerous products like many rawhide products. Our lines of **Bully Sticks** are 100% digestible, low in fat, gluten-free, and a good source of protein.

BULLY STICK VARIETIES

Our five delicious varieties of **Bully Sticks** are 100% natural beef pizzle, made in the USA without any dyes, additives, preservatives, or other chemicals. Finally, a healthy, natural chew for dogs.

Our **Bully Sticks** are triple-washed naturally without any chemicals to minimize odor. **Springtime's Premium** and **Jumbo Bully Sticks** are hung to dry, allowing any natural juices to drip off, ensuring a low-odor product. **Springtime's Choice Bully Sticks** and **Braided Bully Sticks** are laid flat and oven-dried, retaining some of the natural juices, making them extra tasty for dogs.

Choice – Best Tasting

Choice Bully Sticks are oven-dried in their natural casings for extra flavor! All the trimmings left on the **Bully Stick** creates a great natural texture for helping to keep teeth clean. These **Bully Sticks** are laid flat when dried, so some of the natural juices may remain, making them extra tasty for dogs yet low-odor.

Premium – *Long Lasting*

Premium Bully Sticks are extremely tasty and low odor. Denser and longer lasting than our **Choice Bully Sticks**, the **Premiums** are hardy enough for the big chewers, yet still chewable for smaller mouths. **Premium Bully Sticks** are food-grade, triple-washed, and hung vertically to dry, ensuring minimal odor.

Braided – *Triple the Fun*

Best value are our free-range **Braided Bully Sticks**. Three premium **Bully Sticks** are twisted together for a taste-tempting treat and chew toy in one. Dogs love to puzzle and chew apart these bullies — a busy dog is a happy dog! Top of the line in taste and quality, these **Bully Sticks** are easily digestible.

Jumbo – *Big Chew for Big Dogs*

Low-odor, free-range **Jumbo Bully Sticks** are extra dense and thick for maximum chewing and boredom busting. Big dogs or heavy chewers love to sink their teeth into this flavorful, long-lasting treat. Top of the line in taste and quality, these **Bully Sticks** are easily digestible, with no additives or preservatives.

Curly – *A Fun Twist*

Curly Bully Sticks are a fun and yummy challenge for the dog who really loves to chew. Our **Curly Bully Sticks** are the same low-odor, high-quality beef pizzle you have come to expect from **Springtime**, but with a twist! These **Bully Sticks** are perfectly curled and triple-washed for maximum fun and minimal odor.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dog Cookies – Beef Liver & Coconut, Duck, and Chicken & Sweet Potato

Springtime's line of healthy, natural **Dog Cookies** are smokehouse-dried with premium ingredients for tantalizing taste. These savory meat treats are made in the USA with food-grade ingredients. No fillers, additives, dyes, by-products, chemicals, or preservatives. They come in three varieties: **Beef Liver & Coconut**, **Duck,** and **Chicken & Sweet Potato**.

PRODUCT HIGHLIGHTS

- Smokehouse-dried for rich flavor
- Can be broken up for training treats
- Good source of protein, low in fat
- Antioxidant, nutrient-rich
- Gluten free
- Sourced and made in the USA

Ingredients:

Beef Liver & Coconut Cookies: Beef liver, coconut, egg powder, and vegetable fiber.

Duck Cookies: Duck meat, egg powder, and vegetable fiber.

Chicken & Sweet Potato Cookies: Chicken meat, sweet potato, egg powder, and vegetable fiber.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

SPRINGTIME P.O. BOX 1227 COCKEYSVILLE, MD 21030

COOKIES

Three Delicious Varieties

Your dog will love this trio of cookies as a protein-rich treat or as a training reward.

Beef Liver & Coconut

Dogs come running for the taste of **Springtime's Beef Liver & Coconut Cookies!** These cookies are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Plus, they are full of vital nutrients to help maintain an active lifestyle.

Made with only three premium, food-grade ingredients: beef liver, coconut, and egg powder (a good source of protein that acts as a binder), this is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Rich in antioxidants and B vitamins, liver is known to be beneficial for the nervous system, blood, and brain health. Coconut, a great source of fiber, folate, and a host of essential fatty acids, can help protect against cardiovascular and neurological diseases.

Duck

Dogs adore **Springtime's** delicious Duck Cookies. Low in fat and high in protein, duck meat is a rich source of vitamins, minerals, antioxidants, and healthy fatty acids. Duck meat is also an allergy-friendly alternative for dogs that are food sensitive to chicken or beef. **Springtime's Duck Cookies** are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Packed with vital nutrients, they can help maintain an active, healthy lifestyle.

Our **Duck Cookies** are made with just two premium, food-grade ingredients: duck meat and egg powder (a healthy protein that acts as a binder). This is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Chicken & Sweet Potato

Your dog will flip for the combination of delicious chicken meat and nutritious sweet potato in **Springtime's Chicken & Sweet Potato Cookies**. Smokehouse-dried for rich flavor, our **Chicken & Sweet Potato Cookies** are a low fat source of protein that make for a tantalizing training treat or delicious reward.

You won't find any chemicals, fillers, additives, dyes, by-products or preservatives in our **Chicken & Sweet Potato Cookies**. That's because the food-grade ingredients are right in the name – plus a little protein-rich egg powder to hold everything together.

Sweet Potato Pieces

Dogs love the crispy, crunchy texture and delicious taste of **Springtime Sweet Potato Pieces**. Slowly oven-dried, sweet potatoes are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A.

Sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B 6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy, crunchy sweet potato
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

SIZE	$/oz	TOTAL
1 lb	$1.44	$23.00
2 lb	$1.37	$43.75
5 lb	$1.29	$103.25

Available as a free bonus. See page 31 for details.
Product is packaged by weight. Pieces will vary in size.

Ingredients: Sweet potato.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dried Feet – Duck and Chicken

While **Duck Feet** and **Chicken Feet** might not look pretty to pet parents, these easily digestible, satisfyingly crunchy treats are an absolute favorite for dogs! Premium, food-grade **Duck Feet** and **Chicken Feet** contain no additives, dyes, or preservatives and are allergy-friendly for dogs with beef sensitivities.

A natural source of chondroitin sulfate, glucosamine and protein, **Duck Feet** and **Chicken Feet** give nutritional support along with dental hygiene.

PRODUCT HIGHLIGHTS

- Allergy-friendly for beef sensitivities
- Steroid-free & antibiotic-free
- Single ingredient – nothing added
- Supports joints & connective tissues
- Promotes healthy teeth & gums
- 100% digestible
- Sourced & made in the USA

SIZE	$/EACH	TOTAL
Duck (1 lb)	87¢	$26.00
Duck (2 lb)	84¢	$50.25
Duck (5 lb)	80¢	$119.50
Chicken (1 lb)	77¢	$23.00
Chicken (2 lb)	73¢	$43.75
Chicken (5 lb)	69¢	$103.25

Approximately 30 pieces per pound.

Hesperidin, 85%	20 mg
Rutin (vitamin P)	5 mg

Other ingredients: Stearic acid, gelatin, and water.
Contains crustacean shellfish.

Suggested Daily Use:

Good: One per 100 lb body weight
Better: Two per 100 lb body weight
Best: Three per 100 lb body weight

"...within two weeks of resuming the capsules I was restored to my former comfort."

Dear Springtime:

Two or three weeks ago I realized I was reaching the end of my supply of **Joint Health Capsules**. I was prompted to [take them] by my Tae Kwon Do teacher who had seen what they did for one of her elderly horses. She took them herself after seeing the horse's enormous improvement.

I followed her example and the pain in my ankles gradually died away and my joints were no longer bothering me.

When I suddenly felt a pain in my knee I realized how foolish I'd been to abandon them. I started them again immediately and within two weeks of resuming the capsules I was restored to my former comfort.

"...I am able to enjoy riding once again."

Dear Springtime:

Since taking **Cartilage Concentrate** my knee is no longer swollen and painful, my wrists and hands do not hurt as they once did, and I am able to enjoy riding once again. I drive a long distance truck to support my "horse habit" and the difference in the movement and freedom from pain is amazing!

I highly recommend your product and would encourage anyone to try it for a month or two and compare the difference in how they feel.

Boswellia serrata extract, 60%	500 mg

Other ingredients: Dicalcium phosphate, microcrystalline cellulose, croscarmellose sodium, stearic acid, magnesium stearate, silica and film coat (hypromellose, hydroxypropyl methylcellulose, and polyethylene glycol).

Suggested Daily Use: 1-4 tablets taken 1-3 times a day with meals according to personal need.
Please note: Consult your healthcare professional before taking this product if you are pregnant or nursing.

"...I enjoy my life again!"

Dear Springtime:

I have inflammatory issues. I would wake up in the middle of the night, and try to manage the household uncomfortably. My social life was at a standstill. At Christmas time, I tried **Boswellia Extract** tablets. I can't believe the difference in my life. I can actually go out and shop in a store, instead of being stuck in the house. My inflammatory response is maintained at a normal level, and I enjoy my life again!

I can now get up at my leisure without any issues, take care of my home in moderation, and feel so good again! Thank you, **Springtime**!

Garlic (*Allium sativum*) (bulb)	670 mg

Other ingredients: Stearic acid, gelatin, and water.

Suggested Daily Use: Best taken with food. As a dietary supplement, take one to three capsules daily. To help deter biting insects, we recommend at least three capsules per 100 lb body weight.

"...after hiking in very thick woods, not one tick!!"

Had to be the first to gush about your garlic tabs for people!! I am an avid hiker, year round. The bugs used to make Spring and Summer unbearable ... Enter **Springtime's Garlic**!! I take it every morning after breakfast, along with your **Tonic Blend**. Today, after hiking in very thick woods, not one tick!! And I looked everywhere!! Or any other bug bite, and trust me when I say, the bugs were swarming!! THANK YOU FOR MAKING SUCH INCREDIBLE PRODUCTS!! I already tell people about your wonder supplements, and continue to take them myself.

Spirulina Tablets for People

BUY 2 GET 1 FREE!

The most widely used word to describe spirulina is "super supplement." Here's why: Spirulina contains a higher percentage of protein than meat, the highest whole food source of vitamin B12, more iron than beef liver, 25 times more beta carotene than carrots, more chlorophyll than alfalfa or wheat grass, and three times more omega 6 than evening primrose oil.

PRODUCT HIGHLIGHTS

- Supports healthy endocrine, immune, and nervous system function†
- Helps maintain healthy liver & kidney function†
- Great source of protein, helps satiate the appetite

SIZE	$/TABLET	TOTAL
360	8¢	$28.75
Buy two jars of 360 get ONE FREE	5¢	$57.50

Available as a free bonus. See page 31 for details.

SUPPLEMENT FACTS (PER TABLET)	
Spirulina (*Arthrospira platensis*)	550 mg

Other ingredients: Microcrystalline cellulose and stearic acid.

Suggested Daily Use: As a dietary supplement, take six or more tablets daily. **Spirulina Tablets** are a highly concentrated food that provides support to the endocrine, nervous, and immune systems. A healthy source of protein, **Spirulina Tablets** can be taken before a meal to encourage satiety.

Keeping Healthy with Good Nutrition!

Dear Springtime:

My husband and I have been taking **Spirulina Tablets** and we feel it is a great product. I volunteer at a nursing home with my dog, Jacob, and it is important for me to keep healthy. Since it has worked so well for my husband and myself, I now feed **Spirulina Tablets** to my four dogs.

Keep up the great products!

Bee Pollen for People

Bee Pollen for People contains powerful whole food antioxidants, vitamins, minerals and growth factors potentiated by massive amounts of live enzyme activity.

PRODUCT HIGHLIGHTS

- Gourmet-quality bee pollen
- Excellent source of live enzymes
- Hand-cleaned, mild, sweet – fruity/nutty flavor
- Mixed varieties of pollens provide a wide spectrum of essential nutrients
- Contains healthy antioxidants†
- Great for everyone at any age
- Add to cereal or a smoothie for the ultimate power breakfast

SIZE	$/OZ	TOTAL
3 lb	$1.20	$57.50

Available as a free bonus. See page 31 for details.

Suggested Daily Use: Please start with just a pinch and increase gradually to 1 or 2 rounded tablespoons (½–1 oz) per 100 lb of body weight daily. Highly recommended 1 or 2 hours before workouts.

Recommended: If stored at room temperature, best used within 6 months after opening. For longer storage, please refrigerate.

†This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

THE SECRET TO OUR SUCCESS...

Bee pollen is the foundation on which **Springtime** was built. Our founder, Dennis Hampt, had been using bee pollen for his own health for years when he discovered the positive impact that it had on his dog (see pg. 61). This gave him the idea to sell bee pollen for animals, specifically to horse trainers, whose careers depended on the optimal health of their animals. The trainers were skeptical at first, but the performance on the track was all the proof they needed that bee pollen was a difference maker! The company that became **Springtime** was born.

Bee pollen would end up being a key ingredient in other **Springtime** products for horses, and then dogs, and then for people. Today **Springtime** has a wide array of natural products, but **Springtime Bee Pollen** is still enormously popular, and bee pollen remains a key ingredient in some of our most popular and effective products.

SPRINGTIME

CoQ10 for People

BUY 2 GET 1 FREE!

Coenzyme Q10 (**CoQ10**) is also called ubiquinone because it is so widespread (ubiquitous) in the body. Although it is naturally produced by the body and concentrated in the heart, **CoQ10** can be supplemented to support healthy heart function.

PRODUCT HIGHLIGHTS

- Supports normal heart function†
- Helps maintain healthy energy levels†
- Perfectly complementary to **Tonic Blend**

Suggested Daily Use:
Good: One softgel daily
Better: Two softgels daily
Best: Three softgels daily

SIZE	$/SOFTGEL	TOTAL
90	46¢	$41.00
Buy two jars of 90 get ONE FREE	30¢	$82.00

Available as a free bonus. See page 31 for details.

SUPPLEMENT FACTS (PER SOFTGEL)	
Coenzyme Q10 (Ubiquinone)	100 mg

Other ingredients: Rice bran oil, gelatin, glycerin, purified water, beeswax, and titanium dioxide.

Astaxanthin for People

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color. Oxidative stress causes damage to the cells, proteins, and DNA in your body. **Astaxanthin** is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength†
- Supports the body in recovery from exercise†
- Supports cardiovascular function and a healthy circulatory system†
- Supports skin structure, enhancing moisture levels and elasticity†
- Supports skin health during UV and sun exposure†
- Helps support a healthy immune response†
- Supports eye health†

SIZE	$/SOFTGEL	TOTAL
90	76¢	$68.25
Buy two jars of 90 get ONE FREE	51¢	$136.50

Suggested Daily Use: One to three softgels per day with meals.

SUPPLEMENT FACTS (PER SOFTGEL)	
Natural astaxanthin (*Haematococcus pluvialis* microalgae)	12 mg

Other ingredients: High oleic safflower oil (non-GMO), gelatin, water, *Haematococcus pluvialis* extract, glycerin, medium chain triglycerides, and d-alpha-Tocopherol.

†*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

Ultra Omega 3-6-9 for People

BUY 2 GET 1 FREE!

NEW Perfect for maintaining skin health and normal histamine levels. Helpful support for people with seasonal allergies. **Ultra Omega 3-6-9** also helps to maintain healthy immune and joint function and supports a healthy inflammatory response.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin†
- Provides complete full-spectrum omega 3-6-9†
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc.—absolutely clean and safe†
- Supports healthy hip and joint mobility†

THE DOG THAT STARTED IT ALL...

Dear Reader,

The dog pictured above “who looks like a bear” is an Akita named "Buddha." He was my dog many years ago. Buddha suffered a broken leg when he was a puppy. By the time he was seven years old, he had developed crippling arthritis in that same leg. Rather than put him down, as recommended by two different vets, I experimented with health foods to try to help him. Feeding him certain natural foods proved to be a miraculous remedy. Not only did he recover, but he regained the power and strength that he had in his prime. He lived five more pain-free years before dying at the age of twelve.

Over the years, we have added other ingredients to the formula I had given Buddha and it has evolved into our ultimate, all-around chewable supplement for dogs – **Fresh Factors®**. A few years ago, we developed other chewable products that target specific needs for dogs as well.

More recently, we developed an exciting, powerful product called **Longevity**, which is a very highly evolved, powdered version of **Fresh Factors**.

I believe there are millions of dogs who can live longer, happier, and more productive lives for themselves and their loved ones. In honor of Buddha, who is the reason for **Springtime Supplement**s, our mission is to help as many dogs as possible do just that. They give us everything they have. Feeding them the best we possibly can is a way for us to repay them.

Sincerely,

Dennis Hampt, Founder, Springtime, Inc.
