The SPRINGTIME Difference...

Family Owned and Operated

Whether it's customer service, manufacturing, shipping, or the owner himself, we're all located in the building where the magic happens here in Cockeysville, Maryland. When you're talking with us, you're talking to people who love animals and know animals. We're here to listen to your challenges and goals to provide knowledge to help you craft an innovative solution to your need.

Vigorous Testing and Gold Star Standards

We hold ourselves accountable to the strict FDA, NASC, and AAFCO standards to ensure we're formulating the safest, best products possible. Our human-grade raw materials are tested for quality, identity, purity, strength, etc. according to USP standards. Each raw material must pass every test or we will not use it. Period. We're not in the business of being 'good enough'.

Bundle Deals and Freebies

Investing in your health and your animals' health is serious business. We offer many specials and incentives to help bring down daily costs and extend the supply of supplements to get your money's worth. We have many Buy 2 Get 1 Free Specials, Buy 2 Get 2 Free Specials, and offer free items and free shipping with qualifying orders! We want to do our part to make health and wellness an affordable option.

Same Day Shipping

99% of orders received by 3pm ET are shipped that day. Whether you've waited too long to reorder or are trying something for the first time, know that when your order is placed we get right to work fulfilling it and sending it on its way. Because who likes to wait around?

60-Day Return Window

We get it. Sometimes things just don't work out as we'd hoped. Rest assured that every purchase you make comes with our word that you're not going to be stuck with it should something not work out. If you're not satisfied with any product, simply return it within 60 days for a refund or credit towards something else. No questions asked. (Open containers are subject to a prorated refund.) Shipping fees are non-refundable.

Become a Springtime Savvy Shopper!

We've been here long enough to know so many different and unique ways to help you save money on your order! Do you order different Springtime products for yourself, your dog, and your horse? Sometimes all at different times? We have conversations with customers on a daily basis about how to best take advantage of our specials to save on shipping, extend your supplement supply, and reduce your daily cost in the long run. If you need help figuring out the best way to save money on your order, please give us a call. We are here to help you!

Joint Health OA+

New Formula - Powdered formula made with the Optimal Amounts of joint specific ingredients known to help support all the structures in a joint. Plus (+) hyaluronic acid and manganese for added lubrication, increased absorption, and bone health.

Joint Health OA + is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your horses' joints with complete support to keep them active.

PRODUCT HIGHLIGHTS

- Keeps healthy horses active
- Supports cartilage surface health
- Promotes comfort & mobility
- Support for joint stiffness after athletic activity & competition
- Natural way to maintain healthy joint lubrication
- Helps keep tendons & ligaments healthy & flexible

"His gait is now free, no more pulling, grinding his teeth, or throwing his head."

Dear Springtime,

...I traveled to Canada and bought a 17.1 hand, 11-year-old Thoroughbred, Roswell. He had some issues with pulling on the bit and shaking his head but I thought this was nothing compared to my last horse. Months went by with no improvement, so I put him up for sale. I told my trainer I could not ride this animal. Roswell's gaits were too rough; I felt I had to be adjusted after every ride. I put him in 90 days of training to help sell him, but buyers were still having the same issues that I had. ...I was very frustrated... One day, I noticed a catalog I had never received before...I started reading the testimonials and thought, yeah, sure, whatever, but for some reason...I decided to order the **Joint Health [OA+]**. Your customer service was wonderful. I placed my order and it was on my door three days later... A few weeks later I decided to take Roswell for a lesson. As I was working him, my trainer approached us and said, "What do you have that horse on now?" Now that was gratifying. Roswell and I started our eventing career last year and have been getting a ribbon every time. His gait is now free, no more pulling, grinding his teeth, or throwing his head. He is getting in stride without a problem. Thank you, **Springtime**, you saved Roswell, surely.

– **Sarah VandenBerghe**, Michigan

JOINT HEALTH OA +

SIZE	¾ SCOOPS	$/¾ SCOOP	TOTAL
2.5 lb	80	$1.36	$109.00
5 lb	160	$1.13	$181.50
10 lb	320	$1.04	$332.75
20 lb	640	94¢	$604.00

Per 1,000 lb body weight
Available as a free bonus. See page 47.

If you are looking for our previous formula with Boswellia, please go to page 6 to read about Joint Health Comfort +.

Joint Health Comfort +

NEW NAME - Powdered formula with chondroitin sulfate, MSM, and glucosamine HCl for healthy joint support, and boswellia serrata for comfort & mobility.

Formerly known as **Joint Health Formula** – made with Boswellia, CS, GL, and MSM. We changed the name to better differentiate between our line of joint health products. This powdered version is made with ingredients known to help joints stay lubricated, support the body's normal inflammatory response, and ease discomfort – an excellent option for the aging horse or horse that needs help maintaining comfort and mobility. For comprehensive joint support, not intended to target specific discomfort concerns, please see our new **Joint Health OA +** on page 4.

PRODUCT HIGHLIGHTS

- Keeps healthy horses active
- Supports cartilage health
- Promotes comfort & mobility
- Support for joint stiffness after athletic activity & competition
- Supports a normal inflammatory response
- Natural way to maintain healthy joint lubrication

COCKEYSVILLE, MD 21030 P.O. BOX 1227 SPRINGTIME

"Having actually felt the difference in Merlin's movement... I can attest that the Joint Health Comfort +* HAS made a difference."

Dear Springtime,

Last year my farrier had mentioned to me that my 21-year-old Quarter horse, Merlin, had a hard time keeping his hind legs up when getting his feet trimmed. In fact, he was afraid that Merlin was going to fall. Fortunately, that did not happen. Around the same time, one day while we were out riding down a paved driveway, I noticed that Merlin dragged his left hind foot for a number of steps, but then he was ok.

I mentioned this to Margaret, the owner of the barn where Merlin is boarded. She said that the owner of an older pony had just given her a container of **Springtime's Joint Health Comfort +** that she was trying out, and to offer it to anyone else that was interested. The timing was perfect, and we started Merlin on it right away.

Weeks later, the farrier told me that Merlin was maintaining normal function when he trimmed his feet. I also noticed that Merlin was much smoother, and less hesitant when we rode down hills. This made me realize that age related issues had been creeping up on Merlin, and I hadn't really noticed until I felt how much smoother he was, on the **Joint Health Comfort +**.

Having actually felt the difference in Merlin's movement while riding him and with the feedback from the farrier, I can attest that **Joint Health Comfort +** HAS made a difference. Merlin will be on this formula from now on. I recommend anyone with an older horse to try this formula to see if it makes a difference for them.

– **Donala Wallace**, Maryland

Real Letters from Real People

"This photo brought tears to the eyes of his rescuers..."

Fargo's Rescuers Weren't Sure He'd Move Like This Again.

We take in rescue horses that have been seized by law enforcement for neglect or cruelty or both. Fargo is a Saddlebred whose owner had tied him to a post by his rear legs. This resulted in massive scarring clear down to the bone and as a consequence his legs were weak. When he walks, his rear legs swing out instead of moving directly forward.

When he arrived, Fargo could not lay down because he knew he would not be able to get up. X-rays show that his rear legs have scarring clear through to the bone. We started him immediately on **Joint Health Comfort +***, a product we have used with success on our rescues. Within three months, we saw Fargo with mud on his sides after a rain and we were elated because we knew that he was now able to lay down. He also began to run with the others, something he had not initially done. This photo brought tears to the eyes of his rescuers since no one had been sure they would ever see him move like this.

– **Peggy Neaves**, Florida

*formerly Joint Health Formula

BOSWELLIA SERRATA

Treasured since biblical times for its potent health properties.

Boswellia (also known as frankincense) is an herbal supplement with potent health properties made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for its health properties, including support of a healthy inflammatory response.

Studies have shown that boswellic acid supports a normal inflammatory response by blocking the enzyme 5-lipoxygenase which then inhibits the synthesis of leukotrienes. It has also been shown to support healthy cartilage.

Animal Study

In Switzerland in 2004, a veterinary clinical trial was conducted comparing joint health before and after ingestion of extract of boswellia serrata. The extract was given once a day with food at 400mg/10kg of body weight for six weeks. After just two weeks, researchers noted that 71% of the dogs showed improvement. By week six, significant positive changes were shown in mobility and comfort. A few dogs had brief, reversible episodes of loose stools.

"By week six, significant positive changes were shown in mobility and comfort."

(From Dietary support with Boswellia resin in canine inflammatory joint and spinal disease. Reichling J, Schmokel H, Fitzi J, Bucher S, Saller R. Web. 5 December 2010, PMID: 14994484.)

PRODUCT FACTS

Active Ingredients per scoop (2½ oz):

Glucosamine HCl (shellfish source)	8,100 mg

Inactive ingredients: None.

Directions for Use:

Initial Dose: Two level scoops per 1,000 lb body weight twice daily for the first week.

Daily Maintenance: Administer 1-2 scoops up to twice a day per 1,000 lb body weight. Faster, more dramatic benefits will occur with additional doses.

"Incredible...increased flexibility..."

Dear Springtime:

I am writing to let you know how truly effective and wonderful your product is! My 12 year old Appaloosa mare, Midnight's Magic [Mattie], has been on/off with joint stiffness for over a year despite numerous vet consults and alternative approaches. It has been so disheartening to me. Finally, I decided to start Mattie on **Glucosamine** with the blessing of a new vet. INCREDIBLE – within a few short weeks, Mattie began to noticeably show normal flexibility and was much more "relaxed".

My 22 year old gelding, Juniper, had been injected by a vet for a degenerative joints in his hind right. After seeing the success of Mattie, I decided to add **J-Flex** Concentrate and **Glucosamine** to his treatment. I can't believe it. For the first time he freely and "actively" took the right lead in a canter with maintained normal mobility! I really believe these supplements work and quickly!

- **Candace J. Schoch**, Pennsylvania

MSM

BUY 2 GET 1 FREE!

MSM helps maintain healthy joints & supports a healthy inflammatory response.

MSM (methylsulfonylmethane) is a naturally occurring sulfur compound found in plants, animals, and humans. MSM is recommended for maintaining healthy joint function and supporting a normal inflammatory response associated with daily exercise and training.

PRODUCT HIGHLIGHTS

- An absorbable form of sulfur that supports the healthy production of cartilage
- Supports a healthy inflammatory response, as after exercise or training
- Sulfur is also vital to the production and function of glutathione, an important intracellular antioxidant and detoxifier in the body
- Cost-effective, single-ingredient supplement

Daily Maintenance: Give ½ scoop per 1,000 lb body weight. Amount may be doubled if desired.

CHONDROITIN SULFATE

The body naturally produces a molecule called chondroitin for the formation and maintenance of joints. The good news is that it can be supplemented to support joint health and comfort.

Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and it is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement to maintain healthy cartilage, joint lubrication, and healthy skin, nails, and hair.

Not All Chondroitin Is Created Equal

The chondroitin used in dietary supplements is extracted from the cartilage and connective tissues of animals. The most common animal sources are cow, pig, chicken, and shark. Chondroitin varies depending on the source, and scientists have separated it into three distinct classes: A, B, and C. This is important because chondroitin A has greater health benefits than B or C, and some animal sources have more chondroitin A than others. For instance, chondroitin sulfate sourced from beef trachea cartilage (used by **Springtime**) has among the highest concentrations of chondroitin A. Conversely, some products on the market are labeled as 100% chondroitin but contain 15–25% chondroitin A, rendering them woefully ineffective.

Chondroitin sulfate is one of six related substances called glycosaminoglycans (GAGs), which are also referred to as mucopolysaccharides. Adequate amounts of chondroitin are vital for normal joint function and maintenance as well as many other self-healing mechanisms.

Foundered Horse – "...he made an amazing recovery on J-Flex!!"

Dear Springtime,

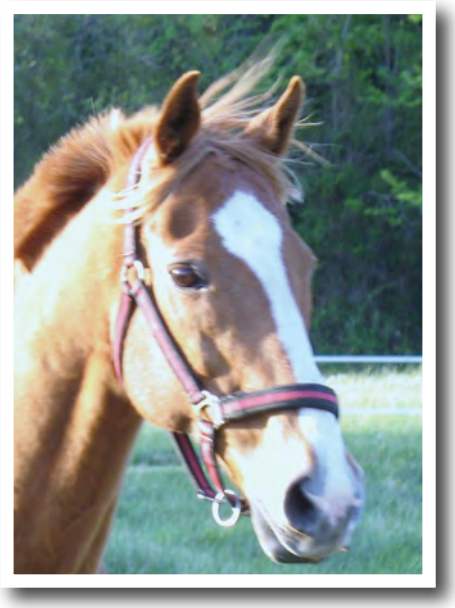
I just want to take the time to thank you for your amazing products. I have attached a photo of Quacker, my 14 year old half Tennessee walking horse. Quacker foundered five years ago. Several options did not help much and all the vet offered was to put him down because at one point he was experiencing discomfort to the point he could not get up. I was ready to make that painful decision, but then I read some of the good success stories in your catalog about **J-Flex Concentrate**. So I decided it couldn't hurt to at least give it a try. He made an amazing recovery on **J-Flex Concentrate!** Now he is back to being the good, sound riding horse he used to be. He's full of life and spirit, and loves to run. Thank you so much **Springtime** for giving me my horse back!!

Sincerely,
Emilie Schmudlach, Wisconsin

Customer Corner: Joint Health

Real Letters from Real People

Retired Show Jumper Sound at 27!



Dear Springtime:

Wow, what super service! I just got an email confirming shipping and my shipping number, and I only put the order in a couple of hours ago. My horse thrives on your products. His registered name is Snappy Count. We call him Snappy, but at times we refer to him as "Count Snappy" when his Thoroughbred blood leads him to act like royalty that I am to wait on hand and foot! Actually he's a very fine old gentleman. He would not be sound at 27 and still enjoying trail rides if it were not for **Joint Health Comfort +***. He's a retired show jumper that has severe joint issues, but you would never know it. We have had a very tough summer with poor hooves so I am hoping your **Hoof & Coat Formula** will give him stronger hooves. Deciding whose product to try first was a 'no brainer.'

- **Michelle Eppinga**, North Carolina

**formerly Joint Health Formula*

Just what the Doc ordered!

Dear Springtime:

This is Doc. He is a 10 year old Mustang. When I purchased/rescued him from an agent, he was abandoned at a boarding facility. He was a dark grey and dingy color. His right shoulder clicked when he walked and he moved in chunky motions. Last spring he had a bought of colic as well.

As a longtime customer of **Springtime** products for dogs and people, I decided to give it a try for this boy. I started him on **Spirulina Wafers** and **Joint Health Wafers**, adding more to the number during the cold months.

We are at almost 9 months of using both products and we are sold. (You can see his fluid movements and thankfully we now can't hear his cracking joints.) You can see his coloring - in the middle of winter! His teeth look awesome and the farrier can't say enough about the change in his hooves. Thanks for providing healthy options for horses.

- **Carol Crane** , Utah

Spirulina Wafers

BUY 2 GET 1 FREE!

A raw blue-green microalgae to help maintain the body's immune, circulatory, and detoxifying systems. Great support for a normal, healthy allergy response.

Spirulina is a deceptively simple ingredient containing complex and powerful live enzymes and a wide spectrum of other factors. By assisting multiple metabolic functions, it helps maintain a brilliant natural bloom. Live enzymes provide superior results compared to lab-made products. Ideal for performance, breeding, or high-stress situations.

PRODUCT HIGHLIGHTS

- Effective for seasonal support
- Supports healthy liver & kidney in their detoxifying & restorative functions
- Helps maintain proper immune system function
- Helps support the body's natural healing process

COCKEYSVILLE, MD 21030

SPRINGTIME

"...decrease in coughing within a month."

Dear Springtime,

I just wanted to tell you that we have a 23 year old Quarter Horse gelding named Travis that has a thyroid tumor. It causes him to cough and have excess mucus. I read about **Spirulina Wafers** in the Horse Journal and decided to try them. We noticed a decrease in coughing within a month. It has been six months on the wafers and he hardly ever coughs. I also have a 22 year old Morgan pony and a 16 year old Thoroughbred. I put them on the **Spirulina Wafers** also. I am very happy with the results.

Lauren and her Morgan pony.

I have attached a photo of my daughter, Lauren Walker, with her Morgan pony. This pony started coughing in the summer of 2009 and it turns out she had a sinus infection. She did a course on antibiotics, and after that I decided she was going on the **Spirulina Wafers** too. So far the cough has not returned, and she has been on the Spirulina Wafers for three months.

– **Rhonda Walker**, Pennsylvania

Available as a free bonus. See page 47.

PRODUCT FACTS

Active Ingredients per wafer (2.45 g):

Spirulina (*Arthrospira platensis*)	1,750 mg

Inactive ingredients: Dextrose and stearic acid.

Directions for Use:

Daily Maintenance: Administer at least one wafer per 100 lb body weight (example: ten wafers per 1,000 lb horse).

Recommended: For best results, start with a few wafers for the first few days and gradually increase to suggested amount. Amount may be doubled or tripled for performance, breeding, or high stress situations.

Bee Pollen

Pollen grains are a natural source of live enzymes, antioxidants, vitamins, and minerals to support breeding, digestion, muscle, hooves, and skin.

Bee-collected flower pollen was the first supplement marketed by **Springtime** back in 1979. Not only is it our oldest product, but it's also one of the most effective. We sell top grade, whole granules. Each batch is hand picked for freshness and flavor. We are very serious about this product. After 43 years, it is still the single most powerful rejuvenator we have experienced.

PRODUCT HIGHLIGHTS

- Can help maintain a healthy digestive system even during a lack of grazing
- Pollen supports healthy muscle condition
- Helps keep blood count healthy
- Pollen grains are a natural food of stallions, mares & foals – totally safe & beneficial for performance, breeding, and high stress situations
- Bee pollen is one of the rare ingredients that contains all 22 nutrients for optimal health
- Naturally contains vitamins, minerals, protein, amino acids, carotenoids, bioflavonoids, phytosterols, fatty acids, and live enzymes

BEE POLLEN

SIZE	SCOOPS	$/SCOOP	$/LB	TOTAL

55 lb	352	$1.60	$10.23/lb	$562.50

PRODUCT FACTS

Active Ingredients per scoop (2½ oz):

Bee pollen	70,875 mg

Inactive ingredients: None.

Directions for Use:

Daily Maintenance: Administer one scoop per 1,000 lb body weight. Amount may be doubled for performance, breeding or if desired. **Recommended:** For best results, start with just a sprinkle for the first few days and gradually increase to suggested amount.

Dear Springtime:

Health & Weight Maintenance

My old horse pictured, is 34 in this photo. I recently ran out of **Springtime Bee Pollen** for him and thought, oh well, he's on pasture part of the day. But in just a couple of months, he lost weight! We reordered our **Springtime** products, and it definitely made a difference in him initially, and taking him off of it was not to his benefit. He'll get this product for the rest of his life.

Vicki Beppler, Wisconsin

Vicki's horse is looking healthy.

BEE POLLEN

SUPPORTS ENERGY, DIGESTION, IMMUNE HEALTH, AND MORE.

Bees produce more than honey! They collect granules of flower pollen as a food source for the adult bees in the hive. Bees would not have their famous reputation for staying busy without flower pollen. Bee-collected pollen is densely nutritious, and it has been treasured for its health properties for thousands of years for both people and animals. The benefits of bee pollen include:

- It helps support healthy muscle condition, essential for strength & endurance
- Live enzymes support healthy digestion
- It supports a healthy immune system
- Contains antioxidants, vitamins, and minerals

The key benefit of bee pollen is that it is loaded with antioxidants, vitamins, minerals, protein, and live enzymes. Because of its dense nutrition bee pollen uses include supporting energy needs, muscle strength, healthy digestion, and immune support. Bee pollen is taken as a supplement in its naturally occurring granule form, ground into a fine powder, or as part of an ingested supplement, such as a pill or chewable tablet.

Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body. Enzymes are perhaps the most important of the health-giving plant factors. They are completely destroyed by high temperatures (130 degrees) – cooking! Enzymes are the essential triggers for the metabolic machinery of every living thing from daffodil to buffalo. The enzymes in raw foods are important because they help support the body's own enzyme systems. Enzymes are the life principle of every living cell.

Bee Pollen for Seasonal Support

Bee pollen supports the immune system. When the immune system is functioning properly, it is less likely to overreact to non-threatening stimuli, like seasonal allergens, with annoying sneezing, coughing, and itching. Typically it is not necessary to consume local bee pollen to achieve the health benefits. This is a common misconception. The immune system benefits of bee pollen operate with a biological mechanism in which the origin of the bee pollen makes no difference whatsoever.

"...my mare is doing wonderful!"

Laura & her Kiger mare

Dear Springtime:

My Kiger mare was very badly damaged at a breeder's. After three surgeries, trying many different options. I spoke to a friend who uses your products. I called your office and was recommended to use **C-Complex** to help support her immune system. Two years later, my mare is doing wonderful! All our horses are on **C-Complex**! If I ever have a problem, I'll call my vet then I'll call you.

Sincerely,

Laura Richards, Oregon

Optional: Give one tube the evening before and one tube 6–8 hours before event.

PRODUCT FACTS

Active Ingredients per 2.5 oz tube:

Tienchi (*Panax notoginseng*)	12,000 mg
Chondroitin sulfate (bovine source)	9,000 mg
N,N-Dimethylglycine HCl (DMG)	4,500 mg
Panax ginseng extract	2,600 mg
Ascorbic acid (vitamin C)	500 mg
Hesperidin	425 mg
Citrus bioflavonoid complex	200 mg

Inactive ingredients: Alcohol (15% as a preservative), fructose, purified water, and vegetable gum.

Nervous Horse – "...it really works!"

Dear Springtime,

My daughter uses **Performance Paste** for her horse. I ordered some and had it on hand. It's much easier for her to use because it does not have to be given daily. I bought it thinking it would be something natural that we could use before horse shows to calm her down a bit. My daughter did not think it worked until she stopped using it. When she used it, she was placing in every event, but as soon as she stopped, her horse was more nervous and did not do as well. She was no longer winning. This went on for a while and she was becoming very frustrated. As soon as she began using **Performance Paste** again, her horse began winning. You made a firm believer out of her! She did so well, she was one of two people in her age group selected to go to State show based upon her riding. Her equestrian team now gets to go on to represent our district in the Michigan Interscholastic Horsemanship Association! What a fine product you've made. We both can say it really works!

Sincerely,
Nancy Sahli, Michigan

Hoof & Coat Formula

Naturally occurring electrolytes, trace minerals, B vitamins and biotin for mineral replenishment, optimal hydration, sound healthy hooves, and a brilliant coat.

Hoof & Coat Formula is a whole food formula made from natural, unrefined ingredients, rich in wide-spectrum trace minerals and electrolytes. Electrolyte balance is essential for sustaining life, as it powers such electrochemical processes as nutrient absorption, proper hydration, healthy muscle contraction, and digestion. Added biotin makes **Springtime Hoof & Coat Formula** specific for maintaining sound, healthy hooves and a brilliant coat.

PRODUCT HIGHLIGHTS

- Farrier recommended
- Supports strong, healthy, functional hooves
- Electrolytes help maintain proper hydration in hot or cold weather
- Excellent fluid balance, especially important for equine athletes
- B vitamins and yeast culture provide healthy digestive system support
- Provides essential nutrients for healthy nerve & muscle function
- Fortified with biotin – one scoop gives you 14 mg

Strong and Healthy Hooves

Dear Springtime,

My black Percheron, Barak, is four years old and in very good health. I have been feeding him **Bug Off Garlic** for some time with great results. Last time I purchased enough to qualify for a free gift. I selected the **Hoof & Coat Formula**. He has completed one small jar. When my farrier arrived to trim his hooves he immediately began asking me what I had done to make his feet so strong and healthy. Percherons are bred for strong legs and hooves so I was surprised that one small jar of **Hoof & Coat Formula** could make such a noticeable difference with very good hooves. I gave my farrier the empty jar and a catalog as he plans to recommend it to his other clients. Thank you **Springtime**, for improving the quality of life for all four-legged friends.

– **Bessie Parker**, Texas

"...I noticed the crack in Sunny's hoof was shrinking!"

Dear Springtime:

My Quarter/Fox Trotter mare, Sunny, foundered about 3 years ago. I have fought with her feet constantly. Last year, the right front cracked, and I had lost my farrier. Her feet went without attention for almost 3 months as I located a farrier who had the expertise I wanted. In the meantime, I came across the **Hoof & Coat Formula,** and began feeding it immediately.

A month later, I noticed the crack in Sunny's hoof was shrinking! Not only was it reconnecting from the top but from the bottom as well! I could hardly wait for the farrier to come again. When he did, he too was amazed at the structural difference in her hoof.

Sunny has now been on the **Hoof & Coat** for approximately 7 months. At our last farrier appointment, my farrier declared her sound. In fact, he said that if he did not know she had foundered, he would be wondering if she had. He said her feet looked great, and everything was tight again. Not only do they look better, but they are hard which is so great for white hooves (although muddy in the "after" photo, Sunny has white hooves). **Hoof & Coat** is definitely a miracle worker. Both myself and my farrier give it full credit for my mare's feet health. Sunny will be on it for life.

Cathy Mall, Missouri

Before Hoof & Coat (right), Sunny's hoof had many bad cracks. After using Hoof & Coat (above), her hoof shows dramatic healing.

Real Letters from Real People

"...his hooves look really healthy, shiny, and strong..."

Dear Springtime:

My 4-year-old off-the-track Thoroughbred's registered name is "Great Rezults," but I call him "Sir G" or just plain "G." He was a throw-away, as he only raced 8 times in his young life and came in first just once. So for only $600, I have a beautiful 4-year-old Thoroughbred with lots of life left in him, and he's enjoying the retired life!

I have been using your **Hoof & Coat Formula** on Sir G for a little over a week now. He was suffering from rain rot. I used a product that killed the rain rot, but his hair had not grown back in. However, this past week, after I started on **Hoof & Coat Formula**, I noticed his hair has achieved a shiny, healthy coat!!! WOW, that was FAST!

And I'm pretty sure his delicate hooves have strengthened as well. He has kept both of his shoes securely on the past 2½ weeks (twice, he has lost one prematurely). Today I noticed his hooves look really healthy, shiny, and strong, and his hind hooves haven't started chipping away like they normally do after a couple of weeks.

This past week after starting him on the **Hoof & Coat Formula**, he recovered at a rapid pace from both the rain rot AND his soft, water-damaged hooves. Thank you, **Springtime** for a wonderful product. I will send you an update to let you know what my farrier thinks. I'm sure he will be very pleased!

Sir G's coat and hooves look great.

Sincerely,
Gayle Stephenson, Florida

"I have put all my horses on Hoof & Coat Formula."

No more "thumps" for Classy.

Dear Springtime:

I have four horses, and was originally only going to give **Hoof & Coat Formula** to my 17-year-old endurance horse, Classy. He has been getting "thumps". It was determined that he was low in sodium chloride. I tried everything. Nothing seemed to work. I strongly considered retiring him.

I have given Classy **Hoof & Coat Formula** for six months now and so far NO THUMPS! My Arab filly had been experiencing some digestional issues. After giving her **Hoof & Coat Formula** she cleared up. I have put all my horses on **Hoof & Coat Formula**. They glow with health from head to tail! Your company has given me hope that there is a way to heal naturally from the inside out.

Sincerely,

Robyn Levash, California

THE ROOT OF ALL GOODNESS

Panax ginseng has been used for thousands of years to support energy, rejuvenation, and sense of calm.

Ginseng (*Panax ginseng*) is a member of the ivy family that is renowned for the powerful health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress, including during athletic activity. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, "panax" is Greek for "all healing."*

Ginseng is probably most well known for its ability to support a healthy sense of well being and energy. In traditional Chinese medicine, panax ginseng has been used for centuries to maintain a sense of calm. In the West, ginseng is becoming increasingly popular and is being studied for a variety of benefits, including supporting a sense of calm, concentration, a healthy immune system, and normal blood sugar, among others.*

GINSENG IS PROBABLY MOST WELL KNOWN FOR ITS ABILITY TO SUPPORT A HEALTHY SENSE OF WELL BEING & ENERGY.

Panax ginseng is native to cooler climates in Asia and North America. A mature ginseng plant will have five leaves, red berries, and long stem leading to a fleshy, gnarled root system. Cultivated ginseng varies in quality, based on many factors, and wild ginseng, which is very rare, is often regarded as superior. Ginseng's value and popularity has led to over-harvesting, making it more difficult and more expensive to obtain quality ginseng.

Daily Calm®

BUY 2 GET 1 FREE!

A natural, non-sedating daily supplement that helps to reduce nervousness, stress, and spookiness, while enhancing focus, confidence, performance, and health.

Top grade panax ginseng extract is the primary active ingredient in **Daily Calm**. Ginseng is the best known and most widely used of botanicals referred to as adaptogens, harmony remedies, or longevity tonics. They combat stress, improve health and well-being, and upgrade athletic performance. The other ingredients in **Daily Calm** help prevent adrenal exhaustion and assist free radical scavenging. Not only will **Daily Calm** assist nervous horses, it is useful for any high-performance lifestyle.

PRODUCT HIGHLIGHTS

- Improves ability to manage stress as a daily supplement or to target specific events
- Does not sedate
- Great for travel/trailering
- Helps maintain focus & attention during lessons, events & shows
- Reserves energy for periods of peak requirement
- Stallwalkers, weavers, easily "spooked," and high-strung types

Rescued Horses – "...quiet and content..." and "string halt free..."

Dear Springtime,

We wanted to share our experience with using **Daily Calm®** on one of the rescued horses. A group of Paso Finos came to Horse Protection Association of Florida after they were seized in a cruelty case involving a number of horses. Not all of the horses survived.

Go Boy

Monet, an underweight two year old filly was very sweet and liked people when handled gently and enjoyed being groomed. However, she was panic stricken to be confined in a pen, stall, or pasture. All of the horses here at the HPAF farm are turned out in large pastures all day and night except when they come in for feeding. The pen Monet went in was 40 x 20 and she had her pasture mates on both sides of her for company while in for feeding. As soon as she finished eating, even with a hay bag full of rich orchard and alfalfa hay in front of her, she would frantically run the length of the pen back and forth and would only stop when we physically stopped her. When turned out in a 25 acre pasture, she would run the fence line by the gate, back and forth, incessantly. We started feeding her **Springtime Daily Calm** as her only supplement in December. Through January she improved and did not run the fence as often. By the end of January she was a new horse. She is quiet and content in her pen for feeding and now when turned out in the pasture she goes right off to play and graze with the other horses. **Daily Calm** has worked wonders for this lovely filly. With her improved state of mind she has now begun ground training and should make a lovely horse for some lucky adopter.

Also, we have been using **Joint Health Comfort +*** for years on a number of the horses and recommend it to everyone. Go Boy, a Tennessee Walker who came to us with severe mechanical issues six years ago, maintains beautifully with **Comfort +** and has been able to maintain normal mobility for three years.

Thank you for your wonderful products. We are very grateful to have them for the horses that we take in that are victims of starvation and neglect. **Springtime** products help us to improve their quality of life and get them on the road to a new life.

Most Sincerely,
Morgan Silver
Executive Director, Horse Protection Association of Florida

Gamma

Gamma promotes muscle integrity and definition. It helps support performance, endurance, and healthy skin.

Gamma oryzanol is a rather rare, naturally occurring constituent of rice bran. After being extracted and purified, **Springtime** blends it into rice bran oil, which contains vitamins, antioxidants, and other nutrients. While gamma oryzanol helps build muscle, rice bran oil helps sustain healthy skin.

PRODUCT HIGHLIGHTS

- Helps maintain proper body composition
- Promotes muscle integrity and definition
- Supports performance and endurance
- Supports normal muscle recovery
- Helps establish & maintain healthy weight
- Maintains healthy skin
- Great for showing, prepping for sale, or training horses

"The difference in her haircoat and muscling is amazing."

Dear Springtime,

I've enclosed photos of SC Splash's Valley Girl, alias Magic, taken when I bought her in January of 2009, and today, June 30, 2009. She has been on **Springtime Gamma**. The difference in her haircoat and muscling is amazing. I've used **Gamma** before on a mare I showed in halter, with the same great results. Thanks for a great product!

Laurie Truskauskus-Knott, Texas
Author/Trainer

Gamma Helped Rehabilitate Charlie

Dear Springtime:

We have been using your **Gamma** to rehabilitate one of our horses. Charlie (a mare) came to us stressed out and underweight. A low-stress lifestyle, good grazing, and **Gamma** have been instrumental in supporting a healthy body condition. The pictures show her progress — before and after.

Almost forgot to mention — she is between 25-30 years old.
She looks great and has a great spirit!

Thank you,

Susan Watkins, Virginia

Charlie the mare is clearly underweight before Springtime Gamma.

After Springtime Gamma, Charlie's body condition shows drastic improvement.

No More Coughing

Dear Springtime:

Over the past two or three years, my mare has developed a cough and wheeze. Last year, it was so bad that I was worried she would have to face a very early retirement. If she had to strain herself at all, she would start coughing and have to stop and rest.

I tried nearly everything I could think of, then **DMG 5,600** was recommended to me. Since she has been on it, she has made a complete turn-around. She has NEVER looked or felt better, and I have my old horse back! Thank you!

Valecia Joy Bahr, Iowa

Breather Powder

Breather Powder contains tienchi, a rare herb, best known for maintaining healthy blood circulation and oxygenation, capillary wall strength, and respiratory function.

The active ingredient in **Breather Powder** is tienchi, a somewhat rare botanical that has been used for hundreds of years. Historically, it has been used for a number of health benefits, but is best known for supporting the circulatory and respiratory systems.

PRODUCT HIGHLIGHTS

- A horse that breathes better, performs better
- Supports normal function and integrity of the lungs
- Herbal adaptogen for maintaining healthy blood circulation
- Maintains healthy oxygenation and endurance
- Supports normal capillary wall strength

Oprah no longer coughing!

No More Heaves!

Dear Springtime:

Due to the drought, heat and dusty conditions in our part of the country, my favorite horse, a 19-year-old Tennessee Walking Horse mare, Oprah, developed a severe case of heaves. We tried every remedy we could find — to no avail.

I received one of your catalogs and decided to try the **Breather Powder,** along with the other remedies for about a month. She stopped heaving and coughing. So we stopped giving her anything but the **Breather Powder**. You would never know she had the heaves. Thank you so much for your products.

Darlene Brown, Ohio

Bug Off Garlic Granules

BUY 2 GET 1 FREE!

100% air-dried garlic granules provide a safe, 24-hour shield against flies, ticks, mosquitoes, gnats, and other biting insects. Excellent for horse-fly control!

Veterinarians versed in natural alternatives use garlic in their private practices throughout the world. Although best known for its health protective properties, garlic has been used for centuries as an insect repellent. **Springtime's** air-dried garlic takes that benefit to a new level and is far safer than many chemical products. You may use this product with total confidence.

PRODUCT HIGHLIGHTS

- Provides a 24-hour shield against flies, ticks, mosquitoes, gnats, "no see ums," and more
- No "spray on" hassles
- Safe, effective alternative to chemical products
- Promotes friendly bacteria in the digestive tract (prebiotic)
- Great source of dietary sulfur, including MSM
- Supports a healthy immune system

SPRINGTIME | P.O. BOX 1227 | COCKEYSVILLE, MD 21030

"I didn't even need a fly sheet."

Dear Springtime:

Two years ago when we purchased my mare, Roanie, she was miserable with huge sores on her belly, and the hair on the top of her tail was gone from the horrible itching. Roanie has a bad allergic reaction to the no-see-ums. We tried several things that did not work that year and then I tried **Bug Off Garlic** at the end of the season.

With **Bug Off Garlic**, Roanie had no problem whatsoever with the flies, gnats or no-see-ums. No more sores and itching! I didn't even need a fly sheet. Roanie and I are so thankful for **Bug Off Garlic**! I am giving it to my other horse, Rainy, now also. They both eat it with no issues.

Gloria & Roanie

Also, my farrier has mentioned several times that her hooves are so much better now. I usually put front shoes on Roanie from about April through October when I am riding her a lot. However, my farrier didn't think she would need them this year since her hooves have improved so much. In the past, before the **Bug Off Garlic**, she even needed pads because her feet were so sore. Thank you and keep producing those great products!

Gloria Bonacci, Washington

PRODUCT FACTS

Active Ingredients per scoop (¾ oz):

Garlic (*Allium sativum*)	21,263 mg

Inactive ingredients: None.

Directions for Use:

Initial Dose: Introduce gradually over the first few days by using a fraction of your Daily Maintenance Dose. Do not be discouraged if your horse does not take to the change immediately. Once your Daily Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Daily Maintenance Dose:

Good: One scoop per 1,000 lb body weight

Better: Two scoops per 1,000 lb

Best: Three scoops per 1,000 lb

Best dose is recommended for areas of high infestation.

Recommended: Use year-round. In the spring and fall when insects surge and/or when your horse is exposed to areas of high infestation, we encourage you to double or triple your Daily Maintenance Dose. Variances in color and aroma from batch to batch are normal.

Bug Off Garlic for Horses

Real Letters from Real People

"...we thought it was colic, but really the flies and bugs were just bothering him."

Dear Springtime,

My pony, Tux, uses **Bug Off Garlic**, and loves it! It has made such a difference in our lives.

Tux used to kick at his belly all the time. Last year, it got so bad that we thought it was colic, but really the flies and bugs were just bothering him. Now that he has been having his **Bug Off Garlic** he hasn't kicked at his belly once ever since!

Thanks so much.
– **Nicole Josey**, North Carolina

"Bug Off Garlic will save them a ton on fly spray!"

Dear Springtime,

We just moved to Florida from Colorado, and the horses started to drop weight right away. Everyone I talked to said to get ready for itchy, miserable horses and that they would end up with rain rot, hoof rot, etc. However, I did my research and in addition to the new feed plan, added in the **Bug Off Garlic**. And within two weeks I could really notice a difference in the flies on the horses. I have since been telling everyone that has horses to use this. **Bug Off Garlic** will save them a ton on fly spray! It is safe and has other health benefits as well. Here is a great shot of two of my boys, Radar and Friday, out on the pasture. I had not groomed them in a while and yet they are super slick. One of my neighbors even asked me if I was using hair polish on them. Nope, I told him it was the **Bug Off Garlic** and good forage. Also, I had another man just stop by the house (we are new here) and tell me how good my horses looked and asked if I had any for sale!

Radar and Friday, fly-free & shiny!

I keep my family and pets as natural as possible and this product has far surpassed my expectations – thanks again!

Alicia Morris, Florida

Sweet Potato Treats

Natural slices of 100% sweet potato, slow-dried for a flavorful, crispy bite! A source of dietary fiber and healthy antioxidants.

Horses love the delicious taste of **Springtime's Sweet Potato Treats**. Slowly oven-dried for peak nutrition, **Sweet Potato Treats** are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A. In South America, sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy sweet potato treat
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient - nothing added
- 100% digestible
- Sourced & made in the USA

COMMON QUESTIONS ABOUT GARLIC

SPRINGTIME ANSWERS SOME OF THE MOST COMMONLY ASKED QUESTIONS ABOUT GARLIC.

What kind of bugs are repelled by garlic?

Ticks | Fleas | Flies | Gnats | Mosquitoes | Giardia

How garlic works as a bug repellent:

"It would seem that the powerful compounds such as allicin which garlic releases are inimical to mosquitoes. They have therefore evolved to avoid garlic. Another possibility is that the strong smell of garlic overwhelms the mosquito's sense of smell and prevents them from finding the prey. Whatever the mechanism, garlic's ability to repel a variety of pests has been proven scientifically." (Mendham, Trevor. "A Natural Mosquito Repellent: Garlic for Mosquito Control." Garlic Central. 2003-2005.)

Garlic safety:

Springtime has sold literally tons of garlic a year for over 20 years, and in that time, we have talked to plenty of customers concerning garlic's efficacy, health benefits, and safety for both dogs and horses. There is a lot of misunderstanding about garlic, and most of the confusion stems from a single study in Japan where four dogs were force-fed extremely large amounts of raw garlic. Garlic preparations vary in chemistry, and the air-dried garlic we use contains very little of the oxidative component that may cause problems if used in excess, so it is gentle and absolutely safe for everyday, year-round use. We feel you may give our garlic with complete confidence.

Garlic for pregnant, nursing, and newborn animals:

Many of garlic's nutritional and protective properties are passed on from the mother to the baby during gestation. The customers who have had the best experiences with nursing animals and garlic have introduced it very slowly, taking at least 10 days to ensure acceptance. Foals or puppies can be given garlic as soon as they are weaned. Many breeders report great results.

Increasing garlic with the change of seasons:

Customers report best results when they give Bug Off Garlic year-round, and double or triple the dosage in the spring and the fall. Most people are aware that spring can be very buggy, but it's less well known that fall is a concern, too. Insects like ticks surge in the fall, desperately looking for a last blood meal to survive the winter. We recommend giving Bug Off Garlic daily, year-round, because it can be challenging to re-introduce Bug Off Garlic after a hiatus, particularly with picky animals.

Garlic for animals other than dogs and horses:

Our customers have used garlic successfully on miniature horses, donkeys, goats, sheep, rabbits, alpacas, llamas, deer, and cats as well as many other farm animals. You can calculate the correct dose by body weight according to the dog recommendations for smaller animals or the horse recommendations for the larger animals.

Garlic as a dewormer or heartworm preventative:

Although Bug Off Garlic is helpful in reducing both internal and external parasites, you may wish to consult your practitioner for these issues. For a list of holistic veterinarians in your area, you can visit the American Holistic Veterinary Medical Association online (http://www.ahvma.org/).

Garlic for picky or finicky animals:

For dogs and horses, starting off slowly is key. Introduce gradually over the first few days by using a fraction of the Daily Maintenance Dose. Do not be discouraged if your dog or horse does not take to the change immediately. Once the Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Garlic granules with dry food:

Customers who give grain, pellets, or kibble have developed various strategies to prevent garlic granules from falling to the bottom of the bucket or bowl. For horses, customers have often reported using a spray bottle filled with water, lightly spritzing before sprinkling the garlic on with great success. For dogs, mixing the granules with a little bit of a favorite canned goods, plain yogurt, liverwurst, or peanut butter, often helps.

Bug Off Garlic Chewables

BUY 2 GET 2 FREE!

A safe, natural flea and tick deterrent– garlic in a convenient, tasty chewable.

Garlic is nature's insect repellent. Although best known for its health protective properties, it has been used for centuries as an instect repellent. **Bug Off Garlic** is a convenient, natural, and safe way to protect your dog from fleas, ticks, and other biting insects. Best of all, it does not have the dangerous and painful effects common to spot-on chemical products for flea and tick control.

See Product Highlights on Page 39

Bug Off Garlic for Dogs
Real Letters from Real People

"...I came home with two ticks, but they had none!"

Dear Springtime:

I just wanted to let you guys know my dogs love your **Bug Off Garlic Chewables**. They have had no problems with ticks or fleas. In fact, we went hiking the other day, and I came home with two ticks, but they had none! Our German Shepherd, Atticus, had allergies when we first got him, and we didn't want to continue to put chemical pesticides on him. This was a great alternative. Atticus and Gibson thank you! They are two happy customers!

Kelli Bisch, New Jersey

Gibson (top) & Atticus (bottom) love Bug Off Garlic.

"...never had a single tick..."

Dear Springtime:

I've been using **Springtime** products for at least 5 years now. This boy here has been on **Bug Off Garlic Granules** ever since he was born. First, he got it through his mother, then, when the pups were weaned, the **Bug Off Garlic Granules** went onto their puppy food.

He is now two and a half years old and never had a single tick or flea in his life.

Sandra King, New York

"...Bug Off Garlic Granules make our dogs tick-free."

Dear Springtime:

At our non-profit, no-kill dog rescue in the north woods of Wisconsin, we face a huge insect problem. Before we implemented **Bug Off Garlic**, I was pulling ticks off of our terriers nonstop. We tried various well known dog pesticide products and found that **Bug Off Garlic Granules** make our dogs tick-free. All of the rescue dogs, as well as my personal dogs, are on **Bug Off Garlic Granules** for Dogs.

Penny Wagner,
The Dogs of First Friends Animal Rescue Inc., Wisconsin

No ticks at the Dogs of First Friends Animal Rescue!

Diatomaceous Earth

BUY 2 GET 1 FREE!

A natural, chemical-free way to rid your dog of an active flea infestation.

If your dog has fleas, or is exposed to fleas, **Springtime Diatomaceous Earth (DE)** is a tactical solution to rid your pet and home of an active infestation of these pests.

PRODUCT HIGHLIGHTS

- Microscopically sharp edges of the diatoms pierce the flea's protective coating, so they dehydrate and die
- Works great on bedding, furniture, and carpet
- Chemical and poison free
- Easy to use – sprinkle directly onto pet and/or to exposed living spaces (e.g., carpet, bedding, etc.)
- Great in conjunction with **Springtime Bug Off Garlic** for ongoing year-round support

DIATOMACEOUS EARTH

SIZE	$/OZ	TOTAL
1 lb	$1.09	$17.50
Buy two 1 lb jars get ONE FREE	73¢	$35.00

Available as a free bonus. See page 47.

PRODUCT FACTS

Ingredients: Diatomaceous earth.

Directions for Use:

Sprinkle directly on your dog's coat, taking care to avoid the eyes and nose. Using your hands, work into the fur and onto the skin underneath, focusing on areas where fleas may try to hide. It is okay to leave **Diatomaceous Earth (DE)** on your dog for up to 48 hours before bathing. If used on carpet, bedding, or furniture, **DE** can be vacuumed up after 48 hours, taking care to avoid dust.

THE ULTIMATE ONE-TWO PUNCH FOR COMBATING FLEAS:

1) Eradicate existing fleas by rubbing your dog's coat and living spaces with a generous amount of **Diatomaceous Earth** (avoid nose & eyes).
2) Prevent future flea infestations with **Diatomaceous Earth** and **Bug Off Garlic** (see pages 38-39).

Asa looks better than ever!

Dear Springtime:

I absolutely love the **Skin & Coat Oil** for dogs and can't say enough good things about it! My dog, Asa, has struggled with dry, flkay skin for over 5 years... So, we booked an appointment with a vet dermatologist. At the same time, a friend reccommended your **Skin & Coat Oil** - and he has never been better! So much improvement after only one bottle! While he still has flaky skin - it's so minimal now and the constant scratching has stopped to barely at all! His coat is so much thicker and luxurious!

Becky Yocum

Asa's coat is much more luxurious and the itching has stopped.

Omega 3-6-9

Provides complete and balanced full spectrum omega 3, 6, and 9 fatty acids. Supports healthy skin and joints.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Provides complete full-spectrum omega 3-6-9
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc.—absolutely clean and safe
- Supports healthy hip and joint mobility
- For a vegan alternative in a convenient, shelf-stable bottle, check out **Skin & Coat Oil**

Vitamin E (as mixed tocopherols)	10 IU

Inactive ingredients: Gelatin, glycerin, and purified water.

"...within a few weeks, his hair grew back."

Dear Springtime:

My dog, Huckleberry, lost a patch of hair above his tail. When I saw your catalog and got **Omega 3-6-9**, it has been a huge support. I started Huckleberry out on double dose and within a few weeks, his hair grew back. We get compliments about how shiny he is.

Patches Brown, Ohio

Huckleberry's hair has grown back shiny!

Real Letters from Real People

"Skin & Coat Oil has solved a big problem..."

Skin & Coat Oil has solved a big problem that I haven't been able to solve, even with different vets.

I have had Kipper, a rescue dog for 5½ years now. When I adopted him, he had a bad habit of sucking on one of his rear paws. The foster home who kept him told me that this was an ongoing thing, and although their veterinarian couldn't find a solution, it didn't seem to be a big problem. For 5 years he and I lived with it. Our veterinarian couldn't find a solution either, other than several baths a week using an antibiotic shampoo. That didn't cure it.

We moved across country, to a totally different environment, and it got much worse. Even with the veterinarian's help, his leg became discolored, and he was nibbling at it constantly. Then came **Skin & Coat Oil**. After three days, he was nibbling at his leg and hind quarters far less. Since then, it has stopped completely. He is no longer sucking at his rear paw, either. The coloring is almost completely normal. He is resting well, and not in constant irritation, so his temper is better, and he has more energy.

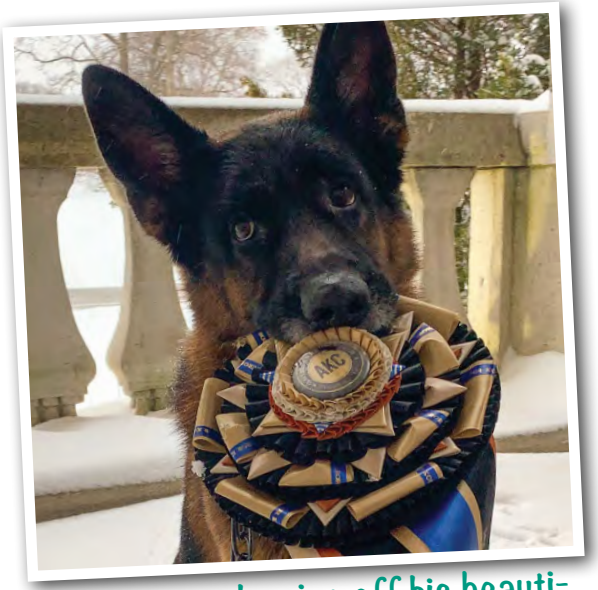
I am attaching a recent photo of Kipper. He is 24½ lbs. and on a strict diet. He would be much heavier if I let him eat all that he wanted. In fact, he was much heavier when I got him. He is half Pembroke Corgi,

Kipper's back paw is no longer itchy.

and half French Bulldog, and he is adorable. If Kipper had a Facebook account, he would have many, many friends, much more than I do. But he wouldn't keep it up, so he can't have one!

I have used **Springtime** products on my dogs since 1986, and I recommend them to everyone with a dog.

Rick Siegert, Oregon



Konqueror showing off his beautiful coat & ribbon!

"...his coat is beautifully lush..."

Dear Springtime:

This is Konqueror. He has recently achieved his AKC Scent Work Master Title. He is already an Elite Nosework and Master Champion in Nosework for UKC. His humble beginnings started with competing the CWAGS Nosework curriculum.

Konqueror loves **Springtime**! Konqueror uses **Bug Off Garlic** year round as a natural repellent and is also boosts his immunity. Konqueror's skin and coat is maintained with year round use of **Springtime's Skin & Coat Oil**. His coat is beautifully lush, soft, and so shiny! Thank you for your quality products! We are long time fans!

Heddi Swan & Konqueror

Astaxanthin

BUY 2 GET 1 FREE!

One of nature's strongest antioxidants providing powerful defense from free radicals.

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength
- Supports healthy cardiovascular function for working, sport, and active dogs
- Supports the body in recovery from exercise
- Supports and protects healthy gums
- Supports skin health during UV and sun exposure

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color. Oxidative stress causes damage to the cells, proteins, and DNA in your dog's body. **Astaxanthin** is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

ASTAXANTHIN

SIZE	$/SOFTGEL	TOTAL
100	37¢	$36.75
Buy 2 jars of 100 get ONE FREE	25¢	$73.50

Available as a free bonus. See page 47.

PRODUCT FACTS

Active Ingredients per softgel (735 mg):

Natural astaxanthin (*Haematococcus pluvialis* microalgae)	4 mg

Inactive ingredients: D-alpha-Tocopherol, gelatin, glycerin, high oleic safflower oil (non-GMO), medium chain triglycerides, and water.

Directions: Administer one to three softgels daily.

Stress Free Calmplex®

BUY 2 GET 2 FREE!

A safe and natural alternative. Made with quality ginseng to help dogs manage stressful situations and separation discomfort.

There is a big difference between high-energy exuberance and stressed-out nervousness. **Stress Free Calmplex** helps the body's natural processes for managing physical and mental stressors. Works best when given daily, but can be given to target specific events.

PRODUCT HIGHLIGHTS

- Helps manage separation discomfort
- Helps support focus and concentration
- Excellent for showing and performing
- Supports ability to deal with environmental stress – does not sedate!
- Helps dogs manage troublesome events (vet visits, trips, boarding, etc.)

SPRINGTIME | P.O. BOX 1227 | COCKEYSVILLE, MD 21030

Reo is ready for anything.

"...incredible how he has changed."

Dear Springtime:

Just a quick note to say thank you. I have a "herder with attitude" dog, a Border Collie and Akita cross named Reo. I have had him on **Stress Free Calmplex®** for most of this year, and it is incredible how he has changed. Yes, he's still very active, but he has now curbed his tendency to be aggressive. As he was a rescue dog, this is good going for him. I hope he will make an agility dog one day, but at the moment, we just keep plugging away to get good behavior out of him.

Maxine Mobbs, Ohio

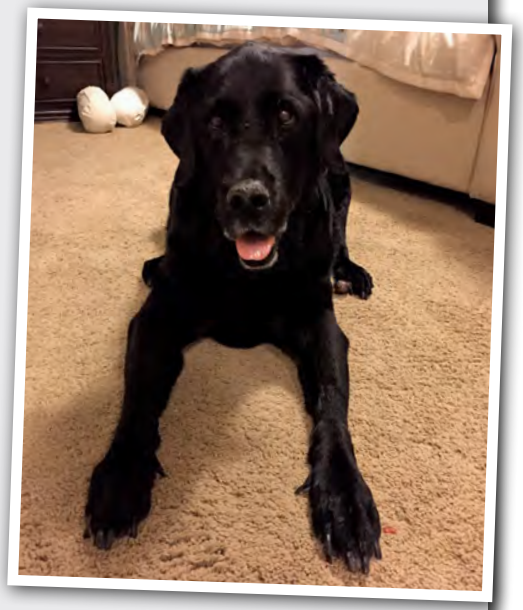
Fresh Factors Helped Duke Beat the Odds

Dear Springtime:

At 6 months of age, my black Labrador, Duke, was given three years to live. He suffered from severe joint issues. After much success with administering **Fresh Factors®** to my mom's Lab & Golden Retriever, I decided to try it out on Duke. We lost my boy last month at age 13. He far exceeded the initial estimate and lived a long, happy, healthy life starting off every day of his life with **Fresh Factors.** My whole family has witnessed the success of this product and swears by it. Thank you for giving me an additional 10 years of happiness with my best friend.

Vicki Norman, California



Duke lived a decade longer than expected.

Real Letters from Real People

Springtime Works Wonders for Wildlife...

I am one of the Animal Caretakers here at the Yellowstone Wildlife Sanctuary in Red Lodge, Montana, and we have been using some of your products for over a year now. We currently have two Coyotes, two Red Foxes, and one Grey Wolf and all of them are on **Fresh Factors®**. Apache, our Grey Wolf, receives the **Fresh Factors** along with the **Advanced Hip & Joint Chewables** every day with her meal. Thanks! The wildlife surely does appreciate it.

Kara Chester, Yellowstone Wildlife Sanctuary, Montana

Apache the Grey Wolf

Bonnie the Coyote

Rex the Red Fox

Nanner and Ghillie have been raised on Fresh Factors for seven and five years respectively. They LOVE their morning "treats."

~Sara Kirkwood, Oregon

13½ Year Old has "...more energy than a two year old."

Dear Springtime:

Just wanted to tell you how much we LOVE **Fresh Factors**! We started using them several years ago with an older dog that had been retired from competitive events because he was showing his age, and just didn't seem to be feeling up to it. After a couple weeks of **Fresh Factors**, he really perked up and was able to go back to training and competing! It was amazing, the difference it made.

We are currently giving **Fresh Factors** to my 13½ year old Border Collie, Rev, who now has more energy than a two year old. I can definitely tell a difference if he misses getting his **Fresh Factors**.

We recommend them to a lot of our clients as well. The remarkable effect **Fresh Factors** has had on several of our dogs has made me want to try them myself!

Lori Herbel, XP Ranch, Oklahoma

X-FACTORS

FIVE KEY INGREDIENTS FOR NATURAL HEALTH

BEE POLLEN

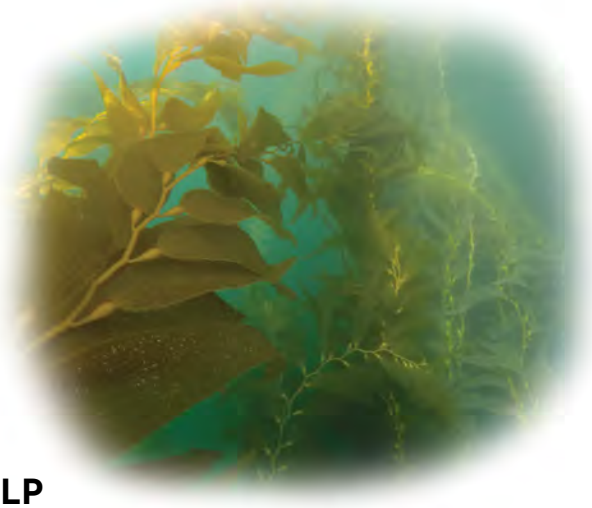
Bee-collected pollen grains are the male germ cells of plants, and the most nutritious part. It contains powerful whole-food antioxidants, vitamins, minerals and hormones potentiated by massive amounts of live enzyme activity. Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body.

NUTRITIONAL YEAST

Yeast culture (*Saccharomyces cerevisiae*) is a complete protein and super-supplement containing 18 amino acids, B complex vitamins, dietary fiber, as well as many other nutritional components and minerals. It contains additional functional and beneficial components such as beta-1, 3 glucan, trehalose, mannan and glutathione. Studies have shown that these components have potential health benefits, such as supporting healthy immune response and cholesterol.

BIOTIN

Biotin is a B vitamin that plays a key role in the production of skin, nails, and hair. The B complex vitamins, like biotin, help the body convert carbohydrates, fats, and protein into energy. Biotin is used by the body to maintain the health of skin, the digestive tract, and the nervous system.



KELP

Kelp is a leafy form of algae seaweed that absorbs a vast variety of nutrients and minerals present in the water around it. Kelp is rich in vitamins (A, B1, B2, C, D and E) as well as minerals (zinc, iodine, Magnesium, iron, potassium, copper and calcium). In addition to its nutritional value, kelp is known to support healthy skin and hair, and for maintaining healthy weight and blood pressure.

CHONDROITIN SULFATE

Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that lubricates joints and gives cartilage its ability to cushion joints. It is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin, hair, and nails.

SPRINGTIME

Joint Health Chewables

BUY 2 GET 2 FREE!

NEW & IMPROVED **- Convenient chewable tablet supports healthy hip and joint function with popular ingredients chondroitin sulfate, glucosamine HCl, MSM, hyaluronic acid, and manganese.**

Customers asked and we listened...now with hyaluronic acid, we think you will be delighted with the new **Joint Health Chewables**! Support healthy hips and joints with proven ingredients chondroitin sulfate, glucosamine HCl, and MSM, plus our new additions of HA and manganese. Some dogs need more support as they age and many find giving a combination of **Joint Health Chewables** and **Fresh Factors®** to be an excellent upgrade.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Helps with mild discomfort associated with aging
- Supports cartilage health
- Great for dogs on all diets
- For the powdered version of this product, check out our **Joint Health OA +** on page 62

Customer Corner: Joint Health Chewables

Real Letters from Real People

"I ... saw a profound change with her within only two weeks."

Dear Springtime:

I wanted to write to you and thank you for the years of support that your product, **Joint Health Chewables**, gave my beloved German Shepherd Hilda. Hilda developed joint issues around the age of two years old. After much research, I ordered Hilda **Joint Health Chewables** and saw a profound change with her within only two weeks. She was able to run again, climb stairs (she didn't even want to go up one step before starting her on the product), enjoyed swimming daily, and lived a good, healthy life.

I kept Hilda on the **Joint Health Chewables** supplements for the remaining seven years of her life. I truly believe that without your product, Hilda would not have had the quality of life she did. This product made such a difference in Hilda, and I have recommended your products to every pet owner I know. I don't know how to thank you.

Sincerely,
Nancy Davis, Michigan

Three Cheers for Joint Health Chews!

Joey is able to clap again!

Dear Springtime:

I was so pleased when we received Joey's **Joint Health Chewables**. This product came highly recommended by our neighbor as I watched his 9-year-old Golden Retriever do the "zoomies" round and round their front yard.

Our 7-year-old Bernese Mountain Dog Joey (a.k.a. Scrumptious) was having a lot of trouble getting up from a laying position. So I doubled his dosage as you suggested. I am actually seeing improvement in just three days!

Joey has been clapping since he was 11 months (yes, he actually sits and claps). Since about 3 months ago, he has been unable to clap for me. Yesterday, I asked him to clap, and without hesitation he did three perfect claps! I got tears of joy!

I am so thrilled, because if he is feeling this much better in just three days, maybe my Scrumptious will soon be doing the zoomies around the yard like our neighbor's dog.

With warm regards,

Maria Brisgel, California

Advanced Hip & Joint Chewables **BUY 2 GET 2 FREE!**

A chewable supplement that supports the body's normal inflammatory response. Helps with mild discomfort associated with aging.

When your dog says "ouch," **Springtime Advanced Hip & Joint Chewables** are the answer. Boswellia extract is especially good for maintaining comfort and mobility associated with aging or post-exercise recovery. Combined with a generous dose of chondroitin sulfate and other high-grade ingredients, such as MSM and glucosamine, for overall joint health.

PRODUCT HIGHLIGHTS

- Keeps healthy dogs active
- Supports cartilage health
- Promotes comfort and mobility
- Natural way to maintain joint lubrication
- Support for joint stiffness after athletic activity & competition
- Chewable tablets, flavored with real beef liver
- For the powdered version of this product, check out **Advanced Hip & Joint Formula** on page 60

Significant Effect on Discomfort

Dear Springtime:

My neighbor, a well-regarded dog breeder, has been using your products for her dogs for years. I never purchased any for my dog Poppy, until this year when she turned 12 and started to show signs of physical wear. She went from running and playing to just lying on the couch.

I started her on **Fresh Factors®** and **Longevity**, but the boswellia in **Advanced Hip & Joint Chewables** seems to have the most significant effect on any problems she has endured because of her aging joints. She is happy and seems to run more easily. She can now jump up and down without the "oof" she was making before she started the **Advanced Hip & Joint**. She's smiling more, and she's more playful, even playing with the cat while she grins.

I am not a vet. I am not a medical expert. I am not a breeder. But I know this: I love my dog, and now she feels better. My beloved Poppy is happy!

Thank you.
Patty Kimura, Massachusetts

Advanced Hip & Joint Formula

BUY 2 GET 1 FREE!

New Name **- Powdered formula with chondroitin sulfate, MSM, and glucosamine HCl for healthy joint support, and boswellia for comfort & mobility. Excellent for aging dogs.**

PRODUCT HIGHLIGHTS

- Promotes comfort & mobility
- Support for discomfort associated with aging
- Great for stiffness after strenuous activity
- Helps maintain joint lubrication
- Helps aging dogs maintain or return to an active lifestyle & the daily activities they love
- Powdered versions are the best value

Formerly known as **Joint Health Formula** – made with Boswellia, CS, GL, and MSM. We changed the name to better align with the chewable tablet version, **Advanced Hip & Joint Chewables** (page 58). This powdered version is made with ingredients known to help joints stay lubricated, support the body's normal inflammatory response, and ease discomfort – an excellent option for the aging dog or dog that needs help maintaining comfort and mobility. For comprehensive joint support, not intended to target specific discomfort concerns, please see our new **Joint Health OA +** on page 62.

"...prime health and condition..."

Directions for Use:
Daily Maintenance:
Good: ½ scoop per 20 lb body weight
Better: 1 scoop per 20 lb
Best: 1½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

Joint Health OA +

BUY 2 GET 1 FREE!

NEW FORMULA - Powdered formula with chondroitin sulfate, MSM, and glucosamine HCl for healthy joint support, hyaluronic acid for joint lubrication and manganese for bone health.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Helps with mild discomfort associated with aging
- Supports cartilage surface health
- Great for growing or aging dogs

Joint Health OA + is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your dog's joints with complete support to keep them active. **Joint Health OA +** is the powdered version of **Joint Health Chewables**, making it an economical choice.

Buy two 1 lb jars get ONE FREE	1,515	8¢	$119.00

Available as a free bonus. See page 47.

Directions for Use:

Daily Maintenance:

Good: ½ scoop per 20 lb body weight

Better: 1 scoop per 20 lb

Best: 1½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

Customer Corner: Advanced Hip & Joint

Real Letters from Real People

"…he's up running and playing again!"

Dear Springtime:

I just wanted to say your company is the greatest! I have a golden Lab who is 9 years old. He was starting to develop hip and joint problems and a friend of mine referred me to your company. He was on the **Advanced Hip & Joint Chewables** for less than two weeks and I could tell a huge difference in him! I used to take him for a walk every night but before the **Advanced Hip & Joint Chewables** he really wasn't interested. Now he's up running around and playing again!

"He was on the Advanced Hip & Joint Chewables for less than two weeks and I could tell a huge difference in him!"

He also developed allergies where he was constantly licking! After reading the side effects of the medication he used before, I didn't want to give it to him again! I chose to use your supplements and he has quit licking his paws! In addition to **Advanced Hip & Joint Chewables**, he is now on **Fresh Factors**® and **Longevity**. I would like to say thank you!

Dena Conners, Missouri

"...much better..."

Angeline's Pug is feeling fine!

Dear Springtime:

My Pug is so much more active after taking **Advanced Hip & Joint Chewables** and **Fresh Factors**. She is doing much better and her condition has not worsened.

"My Pug is so much more active after taking Advanced Hip & Joint Chewables and Fresh Factors."

My little girl, Moon, and I thank you for your wonderful products for our fine furry friends!

Sincerely,

Angeline Marushin, Nevada

J-Flex Concentrate

An economical, single-ingredient supplement to support healthy joints and cartilage and to maintain a normal inflammatory response.

J-Flex Concentrate is pure chondroitin sulfate (bovine cartilage extract) in a powdered form. Customers choose **J-Flex** because it is the most cost-effective joint health product on the market.

PRODUCT HIGHLIGHTS

- Helps support healthy cartilage & joint tissue
- Cost-effective, single-ingredient supplement
- Supports joint lubrication for healthy mobility and flexibility
- Supports a normal inflammatory response for comfort issues
- Easy-to-administer powder (virtually tasteless & odorless)

Mr. Dickens, still spry for 22.

22-Year-Old Cat Going On Strong!

Dear Springtime:

Mr. Dickens adopted us 22 years ago. He has outlived both his original master and his adopted master who lived to age 80. He has an annual checkup, teeth get cleaned every few years – no cavities, no extractions ever. ...and while he is a bit slow he has no problem jumping up on the window bench for his breakfast and dinner – breakfast is supplemented with **J-Flex Concentrate.** At the rate he is going, he may well outlast me...

Thanks for carrying this product.

Pat Beauvais, Arizona

SPIRULINA

This global super-algae supports a healthy immune system for a variety of benefits.

Spirulina is a microscopic blue-green vegetable algae that is considered to be one of the most nutrient-dense ingredients available. Spirulina is a source of highly absorbable protein, mixed carotenoids and other phytonutrients, B vitamins, iron, chlorophyll, GLA and essential amino acids, as well as other trace minerals and nutrients.

Spirulina has emerged as an especially potent and healthy ingredient for humans and animals alike. Spirulina has been used for centuries as a significant food source in many different cultures, as an essential nutrient for health and vitality.

Safe and non-toxic, this natural algae supports the endocrine and immune systems. Spirulina is perhaps best known for its ability to help support a normal allergy response. High in antioxidants, spirulina is thought to help protect the body from free radicals that are found in the environment. Spirulina has also been shown to help promote gastrointestinal health.

The B vitamins in spirulina support the nervous system. In addition, spirulina supports the detoxifying role of the kidneys and liver.

Springtime uses only the highest-grade spirulina, chosen for purity and freshness. Modern culture systems are strictly controlled, assuring 100% purity of the strain for a safe and reliable supply. And, as with all **Springtime** products, we choose to manufacture to USP standards, which include testing for heavy metals, pesticides and contaminants.

Longevity

BUY 2 GET 1 FREE!

New & Improved - Powerful ingredients to maintain healthy joints, skin, digestion, and a powerful immune system.

Longevity is our most comprehensive supplement for dogs of all life stages. The new & improved formula, now with hyaluronic acid and manganese, is designed to support growing or aging joints, promote healthy digestion, immunity, skin and coat, and can boost the overall well-being of any dog. **Longevity** is especially useful in supporting the body's daily detoxification process, which helps dogs defend against common environmental toxins.

PRODUCT HIGHLIGHTS

- Supports healthy, flexible hips & joints
- Maintains elasticity in tendons & ligaments
- Aids immune system and energy levels
- Helps maintain healthy teeth & gums
- Promotes a vibrant coat & nourished skin
- Deodorize & neutralize urine (reduce yellow grass spots)
- Benefits dogs of all ages

Check out the Combo (pg. 57) for a comparable option, in a chewable tablet form.

"Lizzie is healthy ... and going strong at 10 years old."

About three years ago, our English Shepherd, Lizzie got very ill. My vet did not think she would live beyond three months. We started her on the usual liver meds, but not much was helping.

Knowing many of your products have desiccated liver in them I searched through your catalog and came upon the **Longevity** powder. So I ordered a tub and started her on that. I showed the product to my vet, and she said "there isn't an ingredient in there that I don't like." She also liked the high liver content.

Gradually she started improving. I attribute her maintaining liver health to your **Longevity** product. It helped cleanse her liver of the toxins. Lizzie is healthy and alive today and going strong at 10 years old.

Thanks for all the great products you make!

Ann Fake, Pennsylvania

Real Letters from Real People

"... a huge difference in his overall health."

Dear Springtime:

I've purchased several supplements for my dogs before but nothing as effective as **Springtime**. I've used **Springtime** for 3 three years now. I now even have my family buying **Springtime** products. It doesn't matter what you buy, it's top quality and you won't be disappointed.

I had a 10-year-old German Shepherd named Vaughn, who began having some issues in January of 2016. I was devastated. I went to a couple of vets who told me the same thing, which was that my best friend was most likely going to leave us soon. I wondered if there was anything I could do to help Vaughn be comfortable, besides what the vets were giving. Vaughn was beginning to just lay around, not wanting to get up to greet us at the door as he always did. I stumbled across a breeder's website that uses your supplements and swears by them.

Springtime recommended **Longevity** and **Advanced Hip & Joint Chewables** and I started Vaughn on them immediately. I could not believe my eyes. He literally turned into a different dog. He began playing ball again, something he had not done in months. He would greet us at the door when coming home. And although the disease was slowly causing paralysis of his hind legs, I could notice a huge difference in his overall health.

Vaughn

Unfortunately, the inevitable happened. We lost my baby a few months later. It was one of the most difficult times in my life, to lose Vaughn. He grew up with our children and was a protector for all he loved. I cannot thank your company enough for giving me the best, last months with our baby. Vaughn felt the best he could, using **Longevity** and **Advanced Hip & Joint Chewables**. I am forever grateful.

Sarah Bebber Gonzalez, Texas

"His mind seemed sharper, his legs were stronger..."

Humphrey walking in the beach waves!

Dear Springtime:

Humphrey has been through a lot. We adoped him at 10, but I've known Humphrey all his life, and every morning he has been part of a mile and a half beach walk with a group of dogs and their people. His enthusiam for participating in life hadn't waned, but he just couldn't handle the physical demands. A neighbor recommended **Longevity** and wihin two days of starting him on it, it had life-changing effects. His mind seemed sharper, his legs were stronger, and he was able to do our morning beach walks with enthusiam!

Lisa Daffy

Gage, a young Wolfhound, napping with Pannini the lamb.

"...Spirulina Chewables* are a treat..."

Dear Springtime,

I have a small rescue/rehab for a variety of animals and many have been the recipients of your formulas. I currently have 17 dogs, and one of my favorite additions to their diet is the **Longevity**. I raise all my giant breed pups (Wolfhounds and Danes) on this, as optimal nutrition is extra important for the fast growing guys. Nearly all my critters, dogs and otherwise, think the **Spirulina Chewables*** are a treat, and really, anything I have ever ordered is top quality and well accepted by all. I operate on a shoestring budget, but their supps are a priority whenever I can spare the cost. Thanks for being a company I can count on and recommend with pride!

Janice Wolf, Rocky Ridge Refuge, Arkansas (www.rockyridgerefuge.com)

Bee Pollen

Bee-collected pollen contains protein, vitamins, minerals, antioxidants, and live enzymes for optimal health and vitality.

Bee Pollen was the first supplement marketed by **Springtime** back in 1979. After 43 years, it is still one of the best ways to maintain healthy dogs.

PRODUCT HIGHLIGHTS

- Supports healthy muscle with natural plant sterols & growth factors
- Helps maintain healthy blood count
- Supports the immune system
- Immune support contributes to seasonal comfort
- Antioxidants help eliminate free radicals

Better: Two scoops per 40 lb

Best: Three scoops per 40 lb

Best amount is recommended for older dogs, performance, breeding, or if desired.

"Four years of suffering GONE!"

Dear Springtime:

This is our big boy, Max. He's five. Since he was a year old he has suffered terribly from allergies. We tried everything we could think of — anything to save him from pure misery, but nothing was working. So one day, after searching for natural answers, I found **Springtime**. I can't tell you enough how wonderful this has been for Max's life. Four years of suffering GONE!

I Googled and found that **Bee Pollen** helps manage allergies. His fur is coming back full and thick, and his joy level is off the charts. Can you imagine how we feel? THANK YOU!

Debbie King, Oklahoma

Debbie & Max

SPRINGTIME

"...he looks amazing!"

The great Apollo

Dear Springtime,

I show one of my Great Danes, and with his raw diet, the **C-Complex**, and all of the other supplements from you guys, he looks amazing! Here is a photo of my boy that shows your supplements at work! His call name is Apollo and his registered name is Daynakin Lucien Logan - Star Soleil. He is an 8-titled dog in the U.S.A., Canada, and internationally. I'm so particular about what my Great Danes eat.

Victoria Elkins, Washington

Bon A-Pet-Treat!

Made in the USA

SPRINGTIME TREATS

Real meat treats that dogs love. Nothing more, nothing less.

The typical supermarket dog treat is a processed, molded, dyed concoction of mystery ingredients. Our loyal companions deserve better and that's why we created a line of **Springtime Treats**.

Your dogs will love these delicious, all-natural treats, with the flavors and chew to satisfy their primal cravings. And you'll love giving your dogs a natural treat that is made in the USA with high quality ingredients, like duck and beef – and NEVER any fillers, preservatives, or dyes.

Real letters from real people...

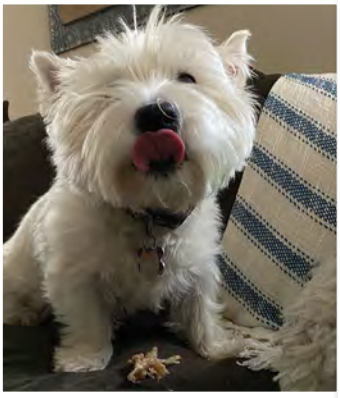
"My dogs love the **Beef Liver & Coconut Cookies**, and I feel good about giving them…"

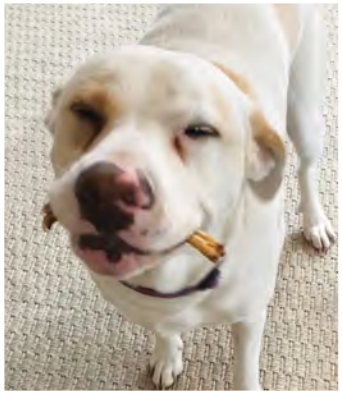
- **Martha McCormick**, South Carolina
  Asgaard Kennel Bernese Mountain Dogs

"They are seriously obsessed ... hands-down their favorite treat!"

Two pictures of my dogs enjoying your **Duck Feet**. They are seriously obsessed with them and are hands-down their favorite treat! I even believe my Westie's teeth look a bit whiter after enjoying one every other day for a few weeks now. And Desi gets squinty eyed, she's so excited when she gets one! THANK YOU!!

– **Lauren**, Ohio





Beef Trachea

Top grade beef trachea, a healthy chew your dogs will love! A natural source of chondroitin sulfate and glucosamine.

Dogs LOVE to chew! Why not use a healthy chew that keeps their teeth and gums clean and is a natural source of chondroitin sulfate and glucosamine? Our oven-dried **Beef Trachea** is delicious and chewy enough to keep dogs happily occupied for a while.

PRODUCT HIGHLIGHTS

- Oven-dried for best flavor
- Minimal odor
- Supports healthy teeth & gums
- Supports joints & connective tissues
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

Bully Sticks

Natural bully sticks made from 100% U.S. beef with no added dyes, preservatives, or chemicals.

Springtime Bully Sticks are made from 100% U.S. beef with no added dyes, chemicals, or preservatives. Chewing is a natural behavior in dogs, but we would prefer they chew on safe, healthy treats rather than less than desirable substitutes like our new leather shoes or the dining room table legs. **Springtime's** line of long-lasting, natural **Bully Sticks** encourages healthy chewing habits, while keeping dogs happy and occupied (making dog owners happy as well!). And **Springtime Bully Sticks** work great as a dental treat, keeping gums and teeth healthy without additives or sugary carbohydrates.

Sourced and made in the USA, our **Bully Sticks** are a safe alternative to chemically laden, potentially dangerous products like many rawhide products. Our lines of **Bully Sticks** are 100% digestible, low in fat, gluten-free, and a good source of protein.

BULLY STICK VARIETIES

Our five delicious varieties of **Bully Sticks** are 100% natural beef pizzle, made in the USA without any dyes, additives, preservatives, or other chemicals. Finally, a healthy, natural chew for dogs.

Our **Bully Sticks** are triple-washed naturally without any chemicals to minimize odor. **Springtime's Premium** and **Jumbo Bully Sticks** are hung to dry, allowing any natural juices to drip off, ensuring a low-odor product. **Springtime's Choice Bully Sticks** and **Braided Bully Sticks** are laid flat and oven-dried, retaining some of the natural juices, making them extra tasty for dogs.

Choice – Best Tasting

Choice Bully Sticks are oven-dried in their natural casings for extra flavor! All the trimmings left on the **Bully Stick** creates a great natural texture for helping to keep teeth clean. These **Bully Sticks** are laid flat when dried, so some of the natural juices may remain, making them extra tasty for dogs yet low-odor.

Premium – *Long Lasting*

Premium Bully Sticks are extremely tasty and low odor. Denser and longer lasting than our **Choice Bully Sticks**, the **Premiums** are hardy enough for the big chewers, yet still chewable for smaller mouths. **Premium Bully Sticks** are food-grade, triple-washed, and hung vertically to dry, ensuring minimal odor.

Braided – *Triple the Fun*

Best value are our free-range **Braided Bully Sticks**. Three premium **Bully Sticks** are twisted together for a taste-tempting treat and chew toy in one. Dogs love to puzzle and chew apart these bullies – a busy dog is a happy dog! Top of the line in taste and quality, these **Bully Sticks** are easily digestible.

Jumbo – *Big Chew for Big Dogs*

Low-odor, free-range **Jumbo Bully Sticks** are extra dense and thick for maximum chewing and boredom busting. Big dogs or heavy chewers love to sink their teeth into this flavorful, long-lasting treat. Top of the line in taste and quality, these **Bully Sticks** are easily digestible, with no additives or preservatives.

Curly – *A Fun Twist*

Curly Bully Sticks are a fun and yummy challenge for the dog who really loves to chew. Our **Curly Bully Sticks** are the same low-odor, high-quality beef pizzle you have come to expect from **Springtime**, but with a twist! These **Bully Sticks** are perfectly curled and triple-washed for maximum fun and minimal odor.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dog Cookies – Beef Liver & Coconut, Duck, and Chicken & Sweet Potato

Unique, savory protein cookies for dogs, made in the USA with real duck and beef. Smokehouse-dried with no additives or preservatives.

Springtime's line of healthy, natural **Dog Cookies** are smokehouse-dried with premium ingredients for tantalizing taste. These savory meat treats are made in the USA with food-grade ingredients. No fillers, additives, dyes, by-products, chemicals, or preservatives. They come in three varieties: **Beef Liver & Coconut Cookies**, **Duck Cookies** and **Chicken & Sweet Potato Cookies**.

PRODUCT HIGHLIGHTS

- Smokehouse-dried for rich flavor
- Can be broken up for training treats
- Good source of protein, low in fat
- Antioxidant, nutrient-rich
- Gluten free
- Sourced and made in the USA

Ingredients:

Beef Liver & Coconut Cookies: Beef liver, coconut, egg powder, and vegetable fiber.

Duck Cookies: Duck meat, egg powder, and vegetable fiber.

Chicken & Sweet Potato Cookies: Chicken meat, sweet potato, egg powder, and vegetable fiber.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

COOKIES

Three Delicious Varieties

Your dog will love this trio of cookies as a protein-rich treat or as a training reward.

Beef Liver & Coconut

Dogs come running for the taste of **Springtime's Beef Liver & Coconut Cookies!** These cookies are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Plus, they are full of vital nutrients to help maintain an active lifestyle.

Made with only three premium, food-grade ingredients: beef liver, coconut, and egg powder (a good source of protein that acts as a binder), this is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Rich in antioxidants and B vitamins, liver is known to be beneficial for the nervous system, blood, and brain health. Coconut, a great source of fiber, folate, and a host of essential fatty acids, can help protect against cardiovascular and neurological diseases.

Duck

Dogs adore **Springtime's** delicious Duck Cookies. Low in fat and high in protein, duck meat is a rich source of vitamins, minerals, antioxidants, and healthy fatty acids. Duck meat is also an allergy-friendly alternative for dogs that are food sensitive to chicken or beef. **Springtime's Duck Cookies** are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Packed with vital nutrients, they can help maintain an active, healthy lifestyle.

Our **Duck Cookies** are made with just two premium, food-grade ingredients: duck meat and egg powder (a healthy protein that acts as a binder). This is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Chicken & Sweet Potato

Your dog will flip for the combination of delicious chicken meat and nutritious sweet potato in **Springtime's Chicken & Sweet Potato Cookies**. Smokehouse-dried for rich flavor, our **Chicken & Sweet Potato Cookies** are a low fat source of protein that make for a tantalizing training treat or delicious reward.

You won't find any chemicals, fillers, additives, dyes, by-products or preservatives in our **Chicken & Sweet Potato Cookies**. That's because the food-grade ingredients are right in the name – plus a little protein-rich egg powder to hold everything together.

Sweet Potato Pieces

Natural slices of 100% sweet potato, rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A.

Dogs love the crispy, crunchy texture and delicious taste of **Springtime Sweet Potato.** Slowly oven-dried, sweet potatoes are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A.

In South America, sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy, crunchy sweet potato
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

SWEET POTATO PIECES

QUANTITY	$/OZ	TOTAL
1 lb	$1.44	$23.00
2 lb	$1.37	$43.75
5 lb	$1.29	$103.25

Product is packaged by weight. Pieces will vary in size.

Available as a free bonus. See page 47.

Ingredients: Sweet potato.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dried Feet – Duck and Chicken

Allergy-friendly, crunchy feet chew for dogs.
A natural source of chondroitin sulfate and glucosamine.

While **Duck Feet** and **Chicken Feet** might not look pretty to pet parents, these easily digestible, satisfyingly crunchy treats are an absolute favorite for dogs! Premium, food-grade **Duck Feet** and **Chicken Feet** contain no additives, dyes, or preservatives and are allergy-friendly for dogs with beef sensitivities.

A natural source of chondroitin sulfate, glucosamine and protein, **Duck Feet** and **Chicken Feet** give nutritional support along with dental hygiene.

PRODUCT HIGHLIGHTS

- Allergy-friendly for beef sensitivities
- Steroid-free & antibiotic-free
- Single ingredient – nothing added
- Supports joints & connective tissues
- Promotes healthy teeth & gums
- 100% digestible
- Sourced & made in the USA

SUPPLEMENTS FOR YOU!

Same Quality Ingredients.
Same Great Results.

THE SPRINGTIME STORY begins with natural supplements designed to help our animal companions feel better and be more active. Over the years, customers have marveled at the quality and performance of our products and wondered if they could get the same benefits.

And while the high quality ingredients in our pet products are safe for human consumption, we are proud to offer products formulated just for people. Same great raw ingredients, but in convenient capsule or tablet form.

Give them a try – you'll both be impressed with the results!

"...I enjoy my life again!"

Dear Springtime:

I have inflammatory issues. I would wake up in the middle of the night, and try to manage the household uncomfortably. My social life was at a standstill. At Christmas time, I tried **Boswellia Extract** tablets. I can't believe the difference in my life. I can actually go out and shop in a store, instead of being stuck in the house. My inflammatory response is maintained at a normal level, and I enjoy my life again!

I can now get up at my leisure without any issues, take care of my home in moderation, and feel so good again! Thank you, **Springtime!**

Joan Reeder, Pennsylvania

Joan is all smiles.

Garlic Capsules

BUY 2 GET 1 FREE!

Garlic is a natural way to support immune health and deter biting insects.*

"Odorless garlic" is an oxymoron, kind of like "jumbo shrimp." **Springtime Garlic Capsules** are definitely not odorless. When you open the jar and sniff, you will be impressed. However, if you take them at mealtime, you probably won't get garlic breath. For best results, please take daily.

PRODUCT HIGHLIGHTS

- Supports and boosts the functions of the immune system*
- Regular daily use helps deter biting insects
- One of the world's most powerful antioxidant foods
- Promotes friendly bacteria in the digestive tract*
- Provides cardiovascular health support & helps maintain healthy cholesterol*

Spirulina Tablets

BUY 2 GET 1 FREE!

Spirulina is a nutritious blue-green microalgae renowned for supporting healthy liver and kidney function.*

The most widely used word to describe spirulina is "super supplement." Here's why: Spirulina contains a higher percentage of protein than meat, the highest whole food source of vitamin B12, more iron than beef liver, 25 times more beta carotene than carrots, more chlorophyll than alfalfa or wheat grass, and three times more omega 6 than evening primrose oil.

PRODUCT HIGHLIGHTS

- Supports healthy endocrine, immune, and nervous system function*
- Helps maintain healthy liver & kidney function*
- Great source of protein, helps satiate the appetite

SPIRULINA TABLETS

SIZE	$/TABLET	TOTAL
360	8¢	$28.75

SUPPLEMENT FACTS (PER TABLET)

Spirulina (*Arthrospira platensis*)	550 mg

Other Ingredients: Microcrystalline cellulose and stearic acid.

Suggested Daily Use: As a dietary supplement, take six or more tablets daily. **Spirulina Tablets** are a highly concentrated food that provides support to the endocrine, nervous, and immune systems. A healthy source of protein, **Spirulina Tablets** can be taken before a meal to encourage satiety.

"...nothing helped like Spirulina Tablets has!"

Dear Springtime:

I have been a customer for a while now using your products for my dog and myself. I just wanted you to know that I had been suffering tremendously from foot issues, and nothing has worked! I decided to start taking **Spirulina Tablets** again, and I noticed I was able to maintain a normal inflammatory response. After three days I started not only feeling better but my feet were back to normal! Believe me I tried all the tricks, and nothing helped like **Spirulina Tablets** has! Thank you!

Bridget Ripley, Texas

Bee Pollen

Bee-collected pollen contains protein, vitamins, minerals, antioxidants, and live enzymes for optimal health.*

Bee Pollen for People contains powerful whole food antioxidants, vitamins, minerals and growth factors potentiated by massive amounts of live enzyme activity.

PRODUCT HIGHLIGHTS

- Gourmet-quality bee pollen
- Excellent source of live enzymes
- Hand-cleaned, mild, sweet – fruity/nutty flavor
- Mixed varieties of pollens provide a wide spectrum of essential nutrients
- Contains healthy antioxidants*
- Add to cereal for the ultimate power breakfast
- Great for everyone at any age

BEE POLLEN FOR PEOPLE

SIZE	$/OZ	TOTAL
3 lb	$1.20	$57.50

Available as a free bonus. See page 47.

Suggested Daily Use: Please start with just a pinch and increase gradually to 1 or 2 rounded tablespoons (½–1 oz) per 100 lb of body weight daily. Highly recommended 1 or 2 hours before workouts.

Recommended: If stored at room temperature, best used within 6 months after opening. For longer storage, please refrigerate.

"...more energy and less sore..."

Dear Springtime:

I play college water polo. After our long practices, I was feeling a lot of fatigue. A few athletes I know recommended **Springtime Bee Pollen**. I can't believe the results. I feel that my normal recovery time after strenuous activity has improved after practice.

CoQ10

BUY 2 GET 1 FREE!

Concentrated in the heart, CoQ10 (coenzyme Q10) is produced by the body to support heart function. Springtime CoQ10 helps support normal CoQ10 levels as you age.*

Coenzyme Q10 (**CoQ10**) is also called ubiquinone because it is so widespread (ubiquitous) in the body. Although it is naturally produced by the body and concentrated in the heart, **CoQ10** can be supplemented to support healthy heart function.

PRODUCT HIGHLIGHTS

- Supports normal heart function*
- Helps maintain healthy energy levels*
- Perfectly complementary to **Tonic Blend**

SUPPLEMENT FACTS (PER SOFTGEL)	
Coenzyme Q10 (Ubiquinone)	100 mg

Other ingredients: Rice bran oil, gelatin, glycerin, purified water, beeswax, and titanium dioxide.

Suggested Daily Use:

Good: One softgel daily
Better: Two softgels daily
Best: Three softgels daily

CoQ10: For Heart Health

The following summaries were published about CoQ10 by the Mayo Clinic, one of the best research hospitals in the world.

On CoQ10 Deficiency...

"CoQ10 is made naturally in the body, but deficiency may occur due to disease, low dietary intake, or high CoQ10 use by the body. Symptoms of deficiency include heart failure, high blood pressure, and chest pain. Depending on the cause of deficiency, supplementing with CoQ10 or increasing dietary intake may be effective."

On CoQ10 for Heart Failure...

"Research suggests that CoQ10 may be effective for chronic heart failure. Low blood levels of CoQ10 have been associated with this condition. CoQ10 has been used in combination with other herbs and supplements for chronic heart failure."

On CoQ10 for High Blood Pressure...

"There is good research to support the use of CoQ10 in the treatment of high blood pressure. However, more studies evaluating a higher dose for a longer treatment period are needed."

Astaxanthin

BUY 2 GET 1 FREE!

One of nature's strongest antioxidants providing powerful defense from free radicals.

PRODUCT HIGHLIGHTS

- Helps the body maintain peak performance; increased endurance, energy, and strength*
- Supports the body in recovery from exercise*
- Supports cardiovascular function and a healthy circulatory system*
- Supports skin structure, enhancing moisture levels and elasticity*
- Supports skin health during UV and sun exposure*
- Helps support a healthy immune response*
- Supports eye health*

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color. Oxidative stress causes damage to the cells, proteins, and DNA in your body. **Astaxanthin** is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

ASTAXANTHIN

SIZE	$/SOFTGEL	TOTAL
90	76¢	$68.25
Buy two jars of 90 get ONE FREE	51¢	$136.50

SUPPLEMENT FACTS (PER SOFTGEL)

Natural astaxanthin (*Haematococcus pluvialis* microalgae)	12 mg

Other ingredients: High oleic safflower oil (non-GMO), gelatin, water, *Haematococcus pluvialis* extract, glycerin, medium chain triglycerides, and d-alpha-Tocopherol.

Suggested Daily Use: One to three softgels per day with meals.

** This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

SUPPLEMENT FACTS (PER SOFTGEL)

Omega-3 fatty acids (Distilled wild fish oil, flaxseed oil) Providing 180 mg of alpha-linolenic acid (ALA), 115 mg of eicosapentaenoic acid (EPA), and 80 mg of docosahexaenoic acid (DHA)	375 mg
Omega-6 fatty acids (Borage seed oil, flaxseed oil) Providing 164 mg of linoleic acid (LA) and 72 mg of gamma linolenic acid (GLA)	236 mg
Omega-9 fatty acids (Borage seed oil, flaxseed oil) Providing 136 mg of oleic acid (OA)	136 mg
Vitamin E (as mixed tocopherols)	10 IU

Inactive ingredients: Gelatin, glycerin, and purified water.

Suggested Daily Use: One to three softgels per day with meals.

INGREDIENT GLOSSARY

A selection of some of the time-tested ingredients used in Springtime Supplements.

ASCORBIC ACID (VITAMIN C)
The "master vitamin" supports a healthy immune system, a normal inflammatory response, and tissue, tendon, and ligament health. Vitamin C is also an antioxidant that plays one of the most important roles in the body. It is needed to maintain the health of skin, cartilage, teeth, bone, and blood vessels. Plus, it is used to protect the body's cells from damage.

ASTAXANTHIN
A reddish pigment that belongs to a group called carotenoids. Found naturally in certain algae, it is what gives shrimp, salmon, and other seafood their pink/red color. Astaxanthin is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

BEEF LIVER
A rich source of B vitamins, iron and trace minerals which naturally support the body's quest for health and energy.

BEE POLLEN
The male germ cell of plants, the most nutritious part. Contains powerful whole-food antioxidants, vitamins, minerals and hormones potentiated by massive amounts of live enzyme activity. Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body.

BIOTIN
Biotin is a B vitamin that plays a key role in the production of skin, nails, and hair. The B complex vitamins, like biotin, help the body convert carbohydrates, fats, and protein into energy. Biotin is used by the body to maintain the health of skin, the digestive tract, and the nervous system.

BOSWELLIA
Boswellia (also known as frankincense) is made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for comfort support by helping the body maintain a healthy inflammatory response.

CHONDROITIN SULFATE
Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement for maintaining healthy cartilage, joint lubrication, skin/coat, and for a normal inflammatory response.

CITRUS BIOFLAVONOID COMPLEX
A biologically active antioxidant that helps optimize vitamin C absorption and utilization. Also known to support a healthy inflammatory response and cellular membrane health.

GARLIC (AIR-DRIED GRANULES)
Nutrient-rich and aromatic, air-dried granules are most well known as a non-toxic bug repellent, a natural detoxicant, and as a dietary sulfur. Garlic is nature's insect repellent. It is a powerful and safe way to protect your horse or dog from fleas, ticks, and other biting insects. Best of all, garlic doesn't have the dangerous and painful effects common to sprays and spot-on chemicals for flea and tick control.

SPRINGTIME P.O. BOX 1227 COCKEYSVILLE, MD 21030

	GLUCOSAMINE Glucosamine is an amino sugar produced by the body for use in tendons, ligaments, cartilage, and in the fluid around the body's joints. Glucosamine supplements help support joint health in people, dogs, and horses by giving the body the additional glucosamine it requires to maintain healthy joint tissue and fluid.
	HYALURONIC ACID Hyaluronic acid is a naturally occuring gel-like substance belonging to the group of glycosaminoglycans (GAGs). It is present in different places in the body, but mostly in the connective tissue space and synovial fluid. Since the purpose of joint fluid is to lubricate, HA helps promote this function. Additionally, HA helps with the shock absorbing capacity of the joint and distribution of mechanical forces impacting the joints.
	**KELP** Kelp is a leafy form of brown-algae seaweed that absorbs a vast variety of nutrients and minerals present in the water around it. Kelp is a commonly eaten food in many places, especially in Japan where it has been used as a food and for health benefits for thousands of years. Kelp has gained popularity in recent decades as a supplement, because it is rich in vitamins (A, B1, B2, C, D and E) as well as minerals (zinc, iodine, magnesium, iron, potassium, copper and calcium). In addition to its nutritional value, kelp is known to support healthy skin/coat and for maintaining healthy weight and blood pressure.
	MANGANESE Manganese is a trace mineral that is essential for the formation of healthy cartilage and bone. It plays a vital role in metabolizing fats and carbohydrates, as well as synthesizing chondroitin sulfate. Manganese is part of the antioxidant enzyme superoxide dismutase (SOD), which helps protect against free radicals.
	MSM Methylsulfonylmethane is a naturally occurring sulfur compound found in plants, animals, and humans. Approximately one third of MSM is sulfur and MSM delivers an absorbable form of sulfur that the body needs for the production of cartilage. MSM is believed to support a normal inflammatory response and is widely used as a supplement for joint health.
	OMEGA/ESSENTIAL OILS Some of the systems that that these nutrients help support are the nervous, immune, and cardiovascular systems. Omegas also help the body maintain healthy skin and joints.
	PANAX GINSENG Ginseng (panax ginseng) is a member of the ivy family that is renowned for the health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, "panax" is Greek for "all healing."
	SPIRULINA Spirulina is a microscopic blue-green vegetable algae that supports healthy endocrine, nervous, and immune systems. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, GLA, and essential amino acids. Spirulina has emerged as an especially healthy whole food for humans and animals alike.
	YEAST – (ACTIVE LIVE YEAST) Active Live Yeast culture (*saccharomyces cerevisiae*) is a complete protein and super-supplement containing 18 amino acids, B complex vitamins, dietary fiber, as well as many other nutritional components and minerals. It contains additional functional and beneficial components such as beta-1, 3 glucan, trehalose, mannan and glutathione. Studies have shown that these components have potential health benefits, such as supporting healthy immune response and cholesterol.

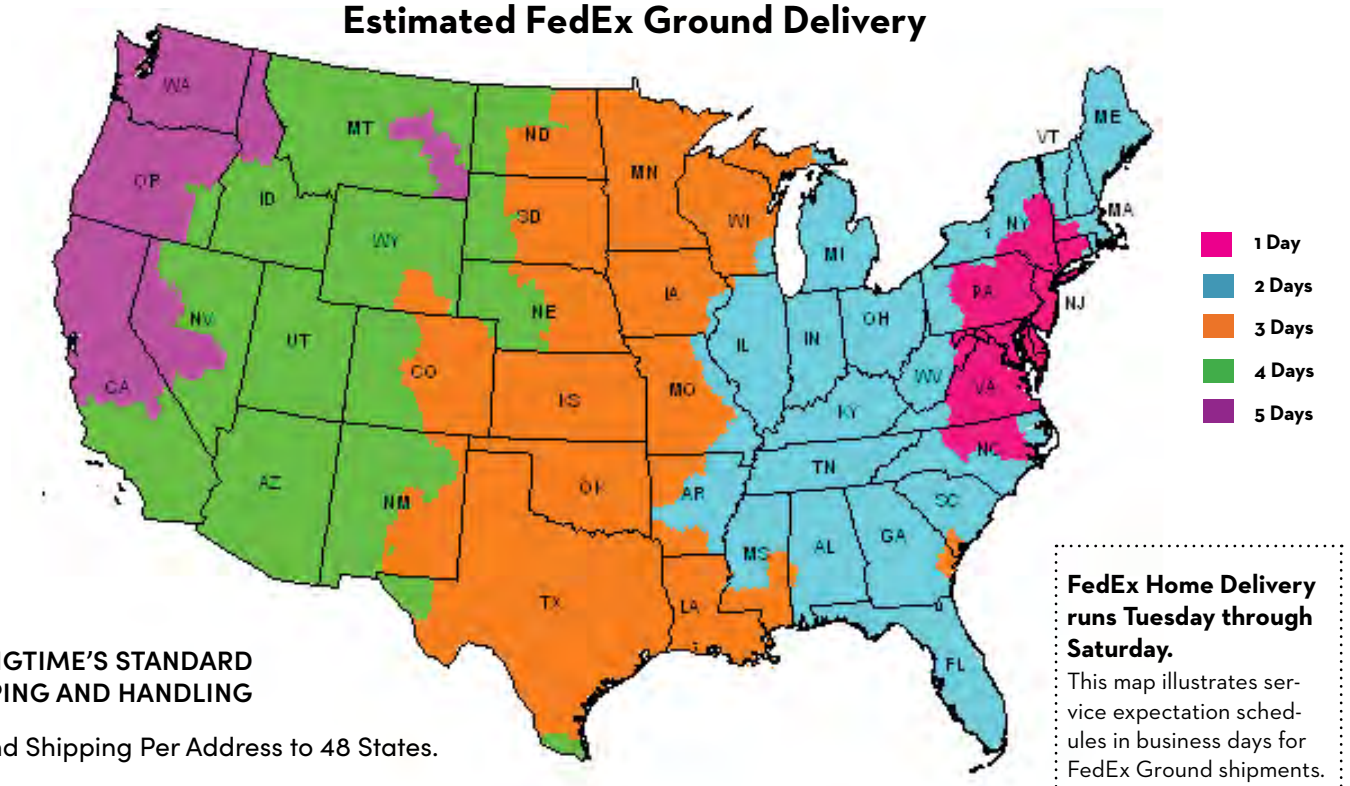
SPRINGTIME'S TERMS AND CONDITIONS

60-DAY RETURN POLICY – If you are not happy with any product, simply return it within 60 days for a credit or refund. No questions asked. (Returns are subject to prorated refund). Shipping fees are non-refundable.
24-HOUR ORDERING – Please visit **springtime.com** for secure online ordering, current specials and email sign-up, or you may call us at 800-521-3212. If you call us after business hours, please feel free to leave your order on the answering service. If you prefer a real person, just leave your name and number and we'll call you back. Our office is open Monday through Friday, 8:30 a.m. to 5:00 p.m., Eastern Time.

$8.00 GROUND SHIPPING per address for orders under $75.00 – Orders under $75.00 delivered to any street address in the lower 48 states for an $8.00 flat fee. If shipping to multiple addresses, please add an additional $8.00 per address. Shipping is FREE for orders $75.00 and over (48 states).

Estimated FedEx Ground Delivery



FedEx Home Delivery runs Tuesday through Saturday.
This map illustrates service expectation schedules in business days for FedEx Ground shipments.

SPRINGTIME'S STANDARD SHIPPING AND HANDLING

Ground Shipping Per Address to 48 States.

Total Order	Shipping/Handling Charges
Under $75.00	$8.00
$75.00 & Up	FREE

SAME DAY SHIPPING TO 48 STATES – 99% of orders received by 2:00 p.m. ET are shipped that day FedEx ground. Please note that FedEx require a "street address" and cannot deliver to a P.O. Box. Expedited shipping is available at an extra charge (please call for rates at 800-521-3212). If orders are placed during weekends or holidays, they will be shipped the next business day.

ALASKA, HAWAII, AND CANADA – Shipped via USPS. Discounted rates based on weight of the package. For shipments to other countries, please call our office at 800-521-3212 for rates.

NO MINIMUM ORDER – No minimum order required to ship. Let us prove to you what thousands of customers already know – Springtime beats all competition for quality, service, and value.

THE DOG THAT STARTED IT ALL...

Dear Reader,

The dog pictured above “who looks like a bear” is an Akita named "Buddha." He was my dog many years ago. Buddha suffered a broken leg when he was a puppy. By the time he was seven years old, he had developed crippling arthritis in that same leg. Rather than put him down, as recommended by two different vets, I experimented with health foods to try to help him. Feeding him certain natural foods proved to be a miraculous remedy. Not only did he recover, but he regained the power and strength that he had in his prime. He lived five more pain-free years before dying at the age of twelve.

Over the years, we have added other ingredients to the formula I had given Buddha and it has evolved into our ultimate, all-around chewable supplement for dogs – **Fresh Factors**®. A few years ago, we developed other chewable products that target specific needs for dogs as well.

More recently, we developed an exciting, powerful product called **Longevity**, which is a very highly evolved, powdered version of **Fresh Factors**.

I believe there are millions of dogs who can live longer, happier, and more productive lives for themselves and their loved ones. In honor of Buddha, who is the reason for **Springtime Supplement**s, our mission is to help as many dogs as possible do just that. They give us everything they have. Feeding them the best we possibly can is a way for us to repay them.

Sincerely,

Dennis Hampt, Founder, Springtime, Inc.
